- **Key Coursework:** Data Visualization, Advanced SQL, Robotic Process Automation (RPA), Prescriptive analysis.

Vellore Institute of Technology, India

July 2017 – June 2021

Bachelor of Technology in Mechanical and Automotive Engineering

GPA 3.7

- **Leadership:** Senior Editor (College Yearbook), Class Representative, Volunteer (Ayuda NGO)
- **Key Coursework:** Problem-solving and Object-Oriented Programming, Complex Variables, Differential Equations.

PROFESSIONAL EXPERIENCE

Graduate Consulting Capstone, Wisconsin School of Business

Jan 2025 – May 2025

Analytics Consultant; Project Sponsor: AGCO Corporation

- Built ARIMA forecasting models in R that improved seasonality prediction accuracy by 25% compared to historical methods, helping AGCO better anticipate demand spikes in specific agricultural equipment.
- Developed interactive Power BI dashboards that tracked historical seasonal sales trends, cutting stakeholder analysis time by 40%.
- Led requirement gathering and model validation with a 4-member team, delivering final insights and recommendations to AGCO executives in a client-style presentation.

Visual BI - An ATOS Company, India

May 2021 – Aug 2024

Data Engineer

- Migrated 4 Tableau dashboards to Power BI, redesigned them with on-demand features, kept track using Azure DevOps and applied Agile methodology, resulting in a 20% reduction in load times and improved user adoption.
- Increased report accessibility and visibility by 50% by rebuilding 22 legacy SAP BO reports in Power BI Report Builder as SSRS reports, and keeping track using Excel.
- Developed 6 dashboards in Tableau to match client requirements, followed agile methodology and kept track of tasks using Jira, and optimized and deployed the dashboards ahead of deadline while increasing efficiency by 20%.
- Automated executive reporting by building a Power Automate bot that distributed daily Power BI insights to Outlook groups, reducing turnaround by 80% and improving stakeholder engagement.
- Extracted data from BigQuery and interacted with 22 clients as offshore front-end developer, collaborating with 2 teams to design 8 reports in Looker Studio resulting in customer decision for project extension.
- Trained 5 junior employees on connecting to diverse data sources and building Power BI reports, raising team productivity and ensuring knowledge transfer.
- Recognized by senior leadership for delivering impactful BI solutions to a logistics client, underscoring strong stakeholder engagement and technical expertise.

TECHNICAL SKILLS

Core Competencies: Stakeholder engagement, Requirements gathering, Data storytelling, BI strategy, Automation.

Visualization and Data Analysis: Power BI (Desktop, Report Builder, Service), Tableau, Excel, Looker Studio, Looker.

Data Platforms: AWS S3, AWS Redshift, AWS Glue, Azure DevOps, Snowflake, GCP BigQuery, Microsoft Fabric.

Programming: Python, SQL, R.

Automation Tools: UiPath, Power Automate.

CERTIFICATIONS

Microsoft Certified: Power BI Data Analyst (2022)

Microsoft Azure Data Fundamentals (2023)

Google Cloud Digital Leader (2022)
