## PROFESSIONAL SUMMARY

Data-driven Business Analyst with 1.5+ years of experience across finance, agriculture, and technology domains. Skilled in SQL, Python, Power BI, and Tableau for data analysis, reporting, and dashboard development. Proven track record of delivering insights that reduced costs, optimized workflows, and improved decision-making for cross-functional teams. Adept at transforming complex data into actionable business intelligence through dynamic Power BI dashboards and data storytelling that drive measurable organizational impact.

## EDUCATION

|                                                                                                  |                                                 |
|--------------------------------------------------------------------------------------------------|-------------------------------------------------|
| <b>University of South Carolina Upstate</b><br><i>Master of Science in Business Analytics</i>    | <b>Spartanburg, SC</b><br><b>December 2024</b>  |
| <b>Gayatri Vidya Parishad College</b><br><i>Bachelor of Technology in Mechanical Engineering</i> | <b>Visakhapatnam, India</b><br><b>July 2022</b> |

## SKILLS

- Programming Languages:** Python, R, SQL
- Data Analytics Tools:** Power BI
- Software Proficiency:** Microsoft 365 (Word, Excel, PowerPoint)
- Additional Technology Expertise:** Prompt Engineering, Machine Learning Techniques, Advanced Analytics Techniques
- Soft Skills:** Teamwork, Collaboration, Organization, Research Skills, Analytical Thinking, Effective Communication
