PROFESSIONAL EXPERIENCE

Vosyn Inc

Chicago, Illinois

Software Engineering Intern

Apr 2025 - Present

- Developed and integrated a search-driven content filtering system using custom React hooks for URL query parameter synchronization, reducing search-to-result latency by 35% and enabling persistent, shareable search states.
- Implemented conditional rendering to dynamically display fallback UI based on search and filter states, increasing user engagement by 22% through improved responsiveness and accessibility.
- Built accessible, responsive, and high-performing UI components (based on Figma designs) for Homepage and Downloads/Playlist pages using React.js, Next.js and JavaScript, enhancing feature delivery speed by 30% through scalable, reusable architecture.
- Containerized front-end services with Docker for consistent local development and streamlined CI/CD pipelines, reducing environment-related setup issues by 40% and improving release reliability.
- Reviewed and maintained production-ready, test-driven code with a focus on usability, performance, and security, lowering post-release UI bug rates by 25%.

Santa Clara University

Santa Clara, California

Web Development Intern

May 2024 - Jun 2025

- Redesigned SCU's Education Department website using CMS tools, creating reusable components and improving development efficiency by 25%.
- Collaborated with the department head on goals and accessibility-focused design to deliver a consistent, inclusive user experience.

Accenture (Contingent Worker - BestBuy, SAP)

Bengaluru, India

Software Engineer

Sept 2021 - Jun 2023

- Maintained and optimized a suite of microservices for BestBuy's high-traffic online platform, leveraging Kubernetes for container orchestration to ensure high availability, seamless scalability and consistent performance across all critical services.
- Performed advanced system monitoring and in-depth log analysis using Splunk to identify performance bottlenecks, detect anomalies proactively and reduce incident resolution time by 25%, strengthening overall operational stability.
- Designed and developed an enterprise application using JavaScript, SAPUI5, Java, SpringBoot and OData services to log work hours, task types and login timestamps with multilingual, multi-time zone and unit conversion capabilities.
- Implemented dynamic visual dashboards with SAPUI5 charting libraries to display employee performance metrics, progress tracking and team hierarchies for improved operational oversight.
- Optimized application performance by applying SAP Fiori best practices such as lazy loading, asynchronous operations and model-driven development, reducing load times by 20%. Ensured seamless real-time data synchronization between the UI and back-end systems via OData services, improving data accuracy to 99%.

Hermitcrabs Technologies, Inc

Bengaluru, India

Front-End Engineering Intern

June 2020 - Aug 2020

- Developed and maintained dynamic, SEO-optimized web pages using HubSpot CMS. Designed custom templates and modules with HubL and HubDB, integrated global CDN, SSL, and page speed optimizations, and followed Agile and Growth-Driven Design methodologies, resulting in an improvement in content delivery performance and enhanced marketer usability.

EDUCATION

Santa Clara University

Santa Clara, California

Master of Science in Computer Science and Engineering, GPA: 3.82/4

Sept 2023 - Jun 2025

Visvesvaraya Technological University

Bengaluru, India

Bachelor of Engineering in Computer Science and Engineering, GPA: 3.81/4

July 2017 - Aug 2021

SKILLS

Languages: Python, Java, Python, C, C++, Javascript, TypeScript, SQL, HTML, CSS, XML, PHP, Kotlin.

Web Technologies: REST API, JSON, HTML, CSS, SAP UI5.

Frameworks: ReactJS, Next.js, NodeJS, Vue.js, Angular, Spring, Spring Boot, Flask, React Native, Flutter.

Databases: MySQL, PostgreSQL, MongoDB, DynamoDB, Cassandra.

Cloud Services and Technologies: Git, GitHub Actions, Docker, Jupyter, Jira, Azure DevOps, AWS, Azure, GCP.

Software Engineering: Agile methodologies, CI/CD development and pipelines, running scrum meetings, SDLC.
