PROFESSIONAL SUMMARY

Business Intelligence Analyst with 4+ years of experience creating interactive dashboards, analyzing business trends, and delivering actionable insights using advanced SQL and Power BI. Improved query performance by 71%, reduced manual effort by 40%, and maintained 99%+ data accuracy across enterprise reporting systems.

WORK EXPERIENCE

Microsoft (People Tech Group Inc)

Sep 2023 - Oct 2025

Business Intelligence Analyst

Redmond, WA

- Designed and maintained 7 interactive Power BI dashboards tracking customer engagement metrics and performance KPIs across 3 regions, translating complex customer engagement data into clear, actionable business insights.
- Developed executive dashboards for monthly leadership reviews, providing strategic narratives on performance trends, customer metrics and territory optimization, aligning with cross-functional business objectives.
- Engineered automated data pipelines using Microsoft Fabric and T-SQL, streamlining data refresh workflows and eliminating 6 hours of manual effort weekly.
- Implemented advanced DAX time-intelligence measures for consistent month-over-month performance analysis, supporting data-driven decision making at both departmental and executive levels.
- Optimized T-SQL stored procedures by 71% through strategic indexing and query tuning in SSMS, enhancing the efficiency of daily reporting processes.
- Streamlined monthly Excel reporting via Power Query and VBA macros, reducing manual data manipulation by 4+ hours while improving overall data accuracy.
- Managed ad-hoc analytical requests from stakeholders, converting raw data into clear performance metrics and actionable territory analyses.
- Compiled monthly KPI reports by integrating SQL outputs with system logs, delivering transparent, data-informed insights to stakeholders.
- Translated business requirements into technical specifications for the data engineering team, defining business logic for over 10 SQL stored procedures to support reporting workflows and ensuring 99%+ data accuracy through rigorous UAT testing.

Infosys Ltd. – Reckitt

Mar 2019 - Jul 2021

Data Analyst

Pune, India

- Conducted thorough root cause analysis on more than 150 Sales and Distribution workflow challenges, implementing targeted solutions that improved key business performance metrics by 15%.
- Analyzed sales operations data using SQL and statistical techniques to pinpoint process bottlenecks across order fulfillment workflows, contributing to a 20% reduction in cycle time and a 12% boost in customer satisfaction.
- Built financial and sales dashboards using Power BI and Excel to support revenue analysis and business reporting, improving financial reporting accuracy by 15% and providing actionable insights to Finance and Operations stakeholders.
- Collaborated with Sales, Finance, and Operations teams to standardize KPI definitions and reporting metrics, reinforcing cross-functional alignment and consistency in data insights.

TECHNICAL SKILLS

- **Data Management:** ETL Processes, Microsoft Fabric, Data Modeling, Data Quality, Data Integration, Data Governance, Process Automation
- **BI & Visualization:** Power BI (Advanced), Power Query, DAX, Excel (Advanced), Tableau, Dashboard Development, KPI Reporting
- **Data & SQL:** SQL, T-SQL, SSMS, Query Optimization, Statistical Analysis, Root Cause Analysis, Performance Analysis
- **Platforms & Tools:** SQL Server, MySQL, Microsoft Azure, Azure DevOps
- **Programming:** Python (Data Analysis), M Query Language
- **Version Control:** Git

EDUCATION

Missouri University of Science and Technology

Aug 2021 - May 2023

Master of Science, Information Science and Technology

Rolla, MO

Specialization: Business Analytics and Data Science

CERTIFICATION

- Microsoft Certified: Power BI Data Analyst Associate (PL-300)
- Microsoft Certified: Fabric Analytics Engineer Associate (DP-600)
- Microsoft Certified: Azure AI Engineer Associate (AI-102)
