Summary

Data Analyst with three years of experience in designing interactive dashboards, automating ETL processes, and enhancing data visualization using Tableau, Python, and SQL. Demonstrated ability to collect and process large datasets, identify trends, and deliver actionable insights that support business decisions. Proven skills in automating report generation and collaborating with stakeholders to drive data-driven solutions.

Skills Stack

- **Languages:** Python, Java, C, HTML/CSS, JavaScript, SQL
- **Developer Tools:** Tableau, PowerBi, Advance Excel, Power Query, Spreadsheets, MySQL, Big Query
- **Other Skills:** Data Analysis, Data Management and Visualization, Big Data, Data Mining, Statistics, Data Engineering, Business Analysis, Requirements Gathering, Visualization & Communication, Process Development, Data Science, Data Visualization

Experience

Deloitte

Jan 2022 - Jul 2023

Data Analyst

Hyderabad, Telangana

- **Quantified Impact:** Collaborated with stakeholders to gather business requirements, collected and cleaned raw data, and developed 15+ interactive dashboards using Tableau, Excel, and SQL to deliver actionable insights and reduce decision-making time by 20%.
- **Streamlined Operations:** Implemented advanced functionalities with Coupa and Cospoint (Mulesoft, Core Java), enhancing data retrieval efficiency by 25% and reducing query response times by 30%.
- **Stakeholder Collaboration:** Communicated complex data findings to non-technical stakeholders and translated user stories into clear, data-driven narratives for cross-functional teams.
- **Data Governance:** Managed data integrity and compliance with industry standards, ensuring accurate analysis and supporting data-driven decision-making.

Infosys

Jan 2020 - Nov 2021

Systems Analyst

Hyderabad, Telangana

- **Sales Analysis:** Developed insightful sales reports by analyzing product performance across different geographical regions, supporting data-driven decision-making.
- **Query Optimization:** Enhanced data handling by optimizing complex SQL queries, achieving a 20% increase in execution efficiency and a 15% reduction in query response time.
- **Team Collaboration:** Coordinated with team members using version control tools like Git to streamline modifications and improve overall project management.

Education

New York Institute of Technology

Sep 2023 - May 2025

MBA, Business Analytics

New York City

- **GPA:** 3.83

Amrita University

Jul 2016 - Jul 2020

Bachelor of Technology, Computer Science

India

- **GPA:** 3.4

Projects & Certifications

Google Data Analytics Certification | [View Certificate](#)

Jan 2025

- Gained knowledge in data cleaning, analysis, and visualization, and tools such as spreadsheets, SQL, the R programming language, and Tableau.

Economic Forecasting Chatbot | [GitHub Link](#)

May 2025

- ForecastMate is a time series forecasting chatbot built using Python, Streamlit, and PyTorch. It provides accurate, user-interactive predictions for crucial economic indicators, including – (U.S. Unemployment Rate, Median Housing Prices, Federal Funds Rate)

Adaptive Quiz System | [GitHub Link](#)

May 2025

- Built an intelligent quiz platform using Gradio, MySQL, and OpenAI GPT-3.5 API that dynamically recommends questions based on user performance. Implemented hybrid recommendation models (popularity, user-based, SVD).
- Integrated AI-driven feedback for enhanced learning insights.

Spotify Data Analysis & Visualization | [Tableau Public Link](#)

May 2024

- Designed interactive dashboards to analyze performance metrics, identify customer needs, and optimize product delivery by uncovering streaming trends and artist insights.
