

Srujan Sadineni

Supply Chain Analyst

Virginia, USA | +1 (571) 669-7994 | srujansadineni78@gmail.com | [LinkedIn](#)

SUMMARY

Supply Chain Analyst with 3 years of experience leveraging SAP MM/PP, Oracle EBS, Snowflake, Tableau, Power BI, and Python to optimize procurement, inventory, and logistics. Proven record in demand forecasting, supplier performance improvement, and process automation, delivering 18% faster order cycles, 15% fewer stockouts, and \$250K annual savings. Skilled in MRP, BOM, KPI dashboards, Lean Six Sigma, and GMP/GDP compliance.

EXPERIENCE

Global Supply Chain Analyst | Prozech - USA

Jun 2024 – Present

- Built an end-to-end supply chain simulation using SAP MM/PP, Snowflake, Tableau, and Python, optimizing procurement, inventory, and logistics processes, cutting order-to-delivery cycle time by 18%.
- Developed demand forecasting models and KPI dashboards to analyze seasonal demand trends, supplier performance, and transportation costs, enabling 15% reduction in stockouts and improving cost-to-serve metrics.
- Deployed supplier risk assessment framework integrating delivery performance, quality scores, and lead-time variability, reducing supply disruptions by 20%.
- Collaborated with cross-functional teams to redesign inventory allocation strategies, reducing excess stock by 12% and saving \$250K annually.
- Implemented automated procurement alerts in SAP to flag low-stock and delayed orders, reducing emergency purchase orders by 22% and improving supplier communication efficiency.
- Conducted root cause analysis on recurring logistics delays, introducing route optimization changes that shortened average transit time by 2.5 days.

Supply Chain Analyst | Anvizon - India

Jan 2022 – Jun 2023

- Optimized end-to-end supply chain processes by analyzing large-scale datasets using SQL, Tableau, and Power BI, uncovering inefficiencies that drove a 15% reduction in lead times and a 12% cost savings in procurement.
- Enhanced inventory management through SAP ERP & Oracle EBS demand planning modules, achieving 98% stock accuracy and reducing excess inventory by 20%, ensuring uninterrupted production.
- Led Lean Six Sigma process improvement initiatives, collaborating with cross-functional teams to streamline workflows, eliminate bottlenecks, and increase operational efficiency by 18%.
- Conducted root cause analyses on supply chain disruptions, implementing corrective measures that improved on-time delivery rates from 89% to 97% within six months.
- Developed and maintained interactive dashboards in Tableau & Power BI, providing real-time insights into key supply chain KPIs, enabling data-driven decisions and improving reporting efficiency by 40%.
- Supported production planning and demand forecasting, aligning manufacturing capacity with market demand and improving forecast accuracy by 15%, resulting in better resource allocation.

SKILLS

- ERP & MRP Systems:** SAP MM/PP, SAP ERP, Oracle EBS
- Databases & Querying:** SQL, Snowflake, Redshift
- Data Analytics & BI Tools:** Tableau, Power BI, Qlik
- Programming & Automation:** Python, Excel (Advanced Formulas, VBA), ETL Pipelines
- Data Management:** Data Cleansing, Data Validation, Master Data Management
- Forecasting & Modeling:** Demand Forecasting, Statistical Analysis, Predictive Modeling
- Visualization & Reporting:** KPI Dashboards, Real-time Reporting, Business Scenario Planning
- Supply Chain & Operations:** Procurement & Strategic Sourcing, Inventory Optimization, Supplier Risk Assessment, Order-to-Delivery Cycle Optimization, Logistics & Transportation Route Optimization, Material Requirements Planning (MRP), Bill of Materials (BOM) Management, Cost-to-Serve Analysis, Root Cause Analysis, Warehouse & Distribution Management
- Methodologies & Compliance:** Lean Six Sigma, Continuous Improvement (Kaizen), Supply Chain Risk Management, GMP/GDP Compliance, Data-Driven Decision Making, Cross-Functional Collaboration
- Soft Skills:** Problem Solving, Critical Thinking, Communication, Stakeholder Engagement, Project Management, Change Control, Analytical Reasoning, Adaptability
- Certifications:** - PL-300: Power BI Data Analyst, Data Analytics Essentials – Credly

EDUCATION

Master's in Data Analytics

Aug 2023 – May 2025

George Mason University, VA, USA

Bachelor in Computer Science and Engineering

Aug 2019 – May 2023

Bharath Institute of Higher Education and Research, Chennai, Tamil Nadu, India

PROJECTS

Demand Forecasting & KPI Dashboard Development | Tableau, Power BI, Snowflake, Python

- Built forecasting models leveraging seasonal and historical demand patterns to align procurement and production planning.
- Created interactive KPI dashboards tracking OTIF, inventory turnover, and transportation costs, leading to a 15% reduction in stockouts.

Inventory Optimization & Cost Reduction Initiative | SAP MM, Oracle EBS, SQL

- Implemented advanced MRP configurations and inventory planning rules to minimize excess stock and prevent shortages.
- Reduced excess inventory by 12%, saving \$250K annually, while maintaining 98% stock accuracy.
