Professional Summary

A skilled ERP Manager and Senior Windows Systems Administrator with over 20 years of experience managing complex IT infrastructures, including Microsoft Windows Server, and M365. Proven ability to implement cost-saving solutions and enhance network security and resiliency. Expertise in SQL querying, data analysis, and integrating business-critical reporting tools to drive operational efficiency. Seeking a role to facilitate an ERP leveraged to the company's core business processes.

Technical Skills

- Databases & Reporting: SQL Server, SQL Anywhere, T-SQL, ETL, Crystal Reports, Power BI, MS Access, Excel
- Operating Systems: Microsoft Windows Server (2008-2022), Hyper-V, Linux (basic)
- Cloud & SaaS: Microsoft 365, Azure Active Directory, Adobe Cloud
- Networking: Fortinet Hardware, LAN/WAN, TCP/IP, VPNS, VLANs, DNS, DHCP, Active Directory, Wi-Fi, POP3, SMTP
- Security & Backup: SentinelOne Endpoint Security, OpenText, Altaro VM Backups
- ERP Systems: ECRS Catapult, Sage X3, Sage 300, Retail Pro, Prophet 21

Professional Experience

Information Technology Manager | Wheatsville Food Co-op | May 2021 – Present

- Managed 12 servers across 4 Hyper-V hosts in 2 locations, ensuring maximum uptime and system resiliency.

- Administered a hybrid Microsoft 365 Azure tenant and on-premises Active Directory, maintaining the company's critical network and infrastructure.
- Led a company-wide rollout of Microsoft M365 to replace internal communication software, resulting in a 50% cost reduction in licensing fees.
- Managed ERP software updates and configurations, adjusting user permissions and security settings to enhance system integrity and user access.
- Migrated the company's network from a flat structure to segmented VLANs, significantly improving network security and reducing network traffic.
- Collaborated with the senior leadership team to develop and implement IT policies that supported business goals and employee well-being.
- Oversaw the IT team's performance, including scheduling and reviews, fostering a highly productive and responsive environment.

Systems Analyst | Twin Liquors | March 2017 – April 2021 (Consulting Periodically Into 2023)

- Created and integrated SQL Stored Procedure-backed Crystal Reports for the ECRS Catapult ERP, enabling enhanced operational oversight.
- Consolidated data from three separate databases (Catapult, Sage 300, and Retail Pro) to produce comprehensive daily sales, finance, and inventory reports for C-suite executives.
- Optimized data retrieval by creating efficient SQL Anywhere queries for Power BI Gateway Data Hubs.

Infrastructure Technical Analyst | AECOM/IBM | October 2016 – February 2017

- Automated the infrastructure cataloging process by creating Windows batch files, reducing manual data entry and human error.
- Documented various infrastructure projects and leveraged Microsoft Access for effective data storage and reporting.

Sage X3 Technical Consultant | Nextec Group | April 2015 – September 2016

- Consulted with clients to maximize the benefits of their ERP system, providing tailored solutions and support.

- Developed and configured automated, manual, and conditional reports using Sage X3, meeting specific client needs.
- Troubleshoot and resolved data corruption issues, ensuring data integrity for clients.

Windows Systems-ERP Administrator/Data Analyst | Stash Tea | June 2012 – March 2015

- Managed onsite and co-located mission-critical servers, establishing robust backup and disaster recovery procedures.
- Supported and administered the Sage X3 ERP system, including patching, security roles, and screen modifications.
- Developed complex SQL objects (Tables, Stored Procedures, Views, and Triggers) to support reporting and business logic.

Windows Systems-ERP Administrator/Purchaser | Eastside Staple & Nail | September 2002 – May 2012

- Administered the Microsoft Windows SBS/Exchange server, workstations, and network connections.
- Maintained all aspects of the Prophet 21/Epicor ERP, ensuring smooth business operations.
- Created custom reports that enabled strategic decision-making related to sales, purchasing, and budgeting in conjunction with the finance/accounting team.
- Managed inventory and led annual physical inventory and cycle counts, improving accuracy.
