BUSINESS EXPERIENCE

Sundaram Finance Limited (Industry: Financial Services)

2008 Jan-
2013 Jun

Senior AGM; Business Analysis & Planning

Responsibilities:

- Development, implementation of new lending product, operational strategies, processes and IT enablement.
- Operational excellence evangelisation through a large team deployed at branches & dealerships.
- Customer & stakeholders connect, and integration of *Voice of Customers* to processes and practices.
- Business planning support with breakup of annual plan to monthly plan along with seasonality. Dynamic understanding & reporting of market variances, countermeasures suggestions for consensus building and implementation of incentives, promotional market activities.

Key Project Highlights:

- #1 Asset portfolio diversification- Successfully planned and led implementation of a companywide project on lending asset class diversification (from 2 to 5 +) involving multiple stake holders both internal (credit, ops, distribution) and external stakeholders (manufacturers, dealers). This led to accretion of a diversified & large auto loan portfolio of 25K customers', INR 20bn size. 95 % gross demand collection every year with best in industry Gross NPA and Net NPA ratios.
- #2 Technology enablement & IS Change management: Customer accretion & CRM process mapping, when we moved from an old legacy hire purchase COBOL based system to cutting edge web enabled Oracle client server system.

Toyota Kirloskar Motors, India (Industry: Automotive)

2007 Apr-
2007 Dec
