EDUCATION

The University of Texas at Dallas

May 2025

Master of Science, Information Technology and Management

Coursework: Statistics for Analytics, Big Data, Spreadsheet Modeling, Database Foundations, Digital Product Management

Vishwakarma Institute of Technology, Pune

May 2023

Bachelor of Technology, Computer Engineering

TECHNICAL SKILLS

Analytics & Modeling: Predictive Modeling, Market Simulation, Financial Forecasting, Risk & Revenue Analysis

Programming & Databases: SQL (advanced queries, CTEs), Python (Pandas, NumPy, Scikit-learn), R, SAS, Snowflake, MySQL

Visualization & BI: Power BI, Tableau, DAX, Mixpanel, Google Data Studio, Metabase, Data Storytelling, Executive Dashboarding

Data Engineering & Tools: ETL (Airflow, dbt), Excel (Solver, Goal Seek, advanced pivots), APIs, Data Validation

Domain Expertise: Energy Market Analysis, Customer Segmentation, AdTech Optimization, AI & Machine Learning

PROFESSIONAL EXPERIENCE

Fugro, Houston, Texas

May 2024 – Present

Market and Data Analyst Intern

- Orchestrated automation of 15+ reporting pipelines and development of 8 interactive Power BI dashboards, reducing reporting turnaround by 30% and empowering executives with real-time insights.
- Validated 10K+ datasets with SQL and SAS, improving accuracy by 35% and strengthening compliance reporting
- Forecasted demand and revenue scenarios with 92% accuracy using SQL and Python, influencing \$600M+ offshore infrastructure investment decisions

American Auto Masters, Dallas, Texas

January 2025 – May 2025

Management Consultant – Data Analyst

- Crafted Excel and Tableau KPI dashboards to track automotive service performance, reducing turnaround time by 18%
- Developed ROI tracking and SQL-based models that shaped 4 strategic process improvements and boosted reporting accuracy

AdElement Media Solution, Pune, India

October 2022 – June 2023

Data Engineer Intern

- Engineered ETL workflows in Python and Airflow for 5M+ daily ad events, enabling real-time monitoring ad events
- Deployed Metabase dashboards and optimization frameworks using Jenkins (CI/CD) that improved campaign targeting, driving \$460K in additional ad revenue
- Integrated Databricks and Snowflake pipelines to consolidate multi-source campaign datasets, streamlining reporting and reducing processing time by 40%

VIT Research Labs, Pune, India

July 2022 – December 2022

AI and Machine Learning Researcher

- Designed BERT-based object detection models on large datasets, achieving ~88% accuracy across 100+ test scenarios
- Executed SQL-driven preprocessing and statistical evaluations, enhancing robustness and traceability of research outcomes

MemeChat, Mumbai, India

June 2020 – April 2022

Data Analyst Intern

- Conducted SQL-based funnel and A/B analyses on 20+ features, raising conversion by 38% and extending session durations
- Developed interactive Power BI and Mixpanel dashboards for 1.5M+ monthly users, equipping marketing leaders with insights into retention, engagement, and campaign KPIs

ACADEMIC PROJECT EXPERIENCE

Energy Market Simulation and Forecasting, UT Dallas

January 2025– May 2025

- Modeled supply, demand, and pricing for electricity, capacity, and renewable energy credits using Python/Excel, increasing forecast accuracy by 20%
- Implemented an AI-based anomaly detection module to flag irregular consumption and pricing patterns, strengthening forecast reliability for strategic planning

Operational Performance Dashboard, UT Dallas

September 2024– December 2024

- Built a Power BI dashboard integrating KPIs, invoices, and tax data, reducing reporting time by 45% for service operations
- Validated reconciliation with SQL audits, cutting reporting errors by 30% and strengthening compliance confidence

ORGANIZATION EXPERIENCE

- **Global Ambassador**, International Initiatives at UT Dallas International Centre
- **Treasurer**, The Product League – UT Dallas
