PROFESSIONAL WORK EXPERIANCE:

Junior Data Analyst, Aramark |

May 2022- April 2024(USF)

- Assisted in migrating on-premises infrastructure to AWS S3, resulting in 20% decrease infrastructure costs
- Collaborated with cross-functional teams to gather requirements, analyze data needs, create data models, resulting in at least 12% reduction data processing time.
- Created Lambda functions to automate data processing tasks and reduce manual effort for 14% improved efficiency.
- Integrated Apache Airflow with AWS to monitor multi-stage workflows and conducted performance tuning on SQL queries, optimizing query execution time by 24% and enhancing overall system performance

Data Analyst, Tata Consultancy Services (Client: Barkley's) |

Jun 2020-Jan 2022 (Full Time)

- Analyzed data including customer demographics, loan portfolios, transaction volumes, and credit risk metrics to identify trends and areas for improvement.
- Designed and implemented Python scripts to automate data processing, saving 10 hours of manual work each week.
- Utilized AWS EMR to streamline data transformations, facilitating the seamless transfer of data into and out of data stores and databases like S3 and DynamoDB, resulting in a 30% reduction in data processing time.
- Prepared and presented comprehensive reports and dashboards to banking leadership, highlighting key findings and recommendations.
- Developed, tracked, and analyzed key banking metrics to assess the effectiveness of loan approvals, customer retention, risk mitigation, and financial product performance.
- Conducted benchmarking studies to compare banking metrics against industry standards, identifying areas for improvement and innovation.

INTERNSHIPS:

Junior Data Analyst, Piramal Pharma Solutions (INDIA) |

May 2019-Aug 2019

- Analyzed large datasets with SQL to identify trends and draw insights, improving operational efficiency by 15%.
- Created and maintained dashboards in Power BI to visualize key pharmaceutical metrics, including drug trial results, sales performance, and inventory levels.
- Managed Tableau dashboards to visualize metrics related to drug efficacy, sales, and distribution, supporting decision-making at both regional and national levels.
- Conducted root cause analysis to identify factors affecting product performance, patient outcomes, and supply chain inefficiencies.
- Collaborated with IT and other departments to integrate pharmaceutical data with other business systems, enhancing data accessibility and streamlining processes.

TECHNICAL SKILLS:

Programming: Python, SQL, Pandas, MLib.

Web: HTML, CSS, TypeScript.

AWS: S3, CloudWatch, SNS, SQS.

Other Tools: VSCode, Jupyter, Excel, Databricks.

Visualizations: Tableau, PowerBi, Matplotlib, Data Mining.

Logistics Management: Lean six sigma, Supply chain.

HR Expertise: HRIS (Workday), Employment Law Knowledge, Diversity and Inclusion Initiatives, Succession Planning, Talent Acquisition, Organizational Development, Security Role Assignments.

Stakeholder Collaboration: Project Management, Leadership Development.

EDUCATION:

- Master of Science in Engineering Management, University of South Florida. Jan 2022- May 2024
- Bachelor of Engineering in Information Technology, Vigna Nirula Institute of Technology and Science for Women. Jun 2016- May 2020.

CERTIFICATIONS:

- Power BI, Tableau, AWS, SQL (Microsoft, LinkedIn)
- Certified Project Manager (Microsoft, Udemy, PMP)
- Certified Data Analyst by Google. (Google, Microsoft, Coursera)
- Lean Six Sigma Green Belt (LinkedIn, CSSC)
- Professional in Human Resources (PHR) (NASBA)
- Certified Project Manager (Microsoft, Udemy, PMP)
- Administrative Human Resources and Strategic Workforce Planning (HRCI)
- Management of Technology (LinkedIn)
- Change Management Foundation (LinkedIn)

ACADEMIC PROJECTS:

Comparing stock Market Growth of Different Countries- Tableau:

- Analyzed stock market values and population metrics of the top 10 countries over 50 years, producing compelling visualizations using Tableau that highlighted growth disparities between the countries. Notably, developing countries Exhibited a CAGR of 12.8%, while advanced countries showed 8.3% CAGR

Twitter Sentiment Analysis using Power BI:

- Designed and implemented a sentiment analysis project to monitor and visualize public opinion on Twitter using Power BI.
- Leveraged Twitter API to collect real-time tweet data and Azure Cognitive Services for sentiment analysis.
- Imported and processed data in Power BI, creating dashboards to display sentiment distribution, trends over time, and keyword analysis, providing actionable insights for social media strategy and brand perception.
