## ABOUT ME

Healthcare analyst with expertise in Medicaid risk management, data analysis (SQL, SAS, Excel), and policy development. Proven track record in leading research initiatives, optimizing healthcare programs, and driving compliance. Skilled in identifying risks, improving outcomes, and supporting data-driven decision-making to enhance patient care and operational efficiency.

## EDUCATION

### B.S. in - Public Health

University of South Florida  
August 2017 - May 2021

### MPH in Public Health (Epidemiology and Global Health Concentration)

University of South Florida  
August 2021 - December 2023

## CERTIFICATIONS

2022 - 6.00.1x Introduction to Computer Science and Programming Using Python Certificate

2022 - 6.00.2x Introduction to Computational Thinking and Data Science Certificate

2022 - Certified Nursing Assistant License

## HONORS & AWARDS

2017/2018 - USF Honors College Dean's List

2019-2023 - USF CPH Dean's List

## SKILLS

- MS Office
- Gantt Charts
- Statistical Analysis Softwares (SAS, SPSS)
- SQL
- Python Programming
- Tableau
- Microsoft SSIS

## VOLUNTEERING

- Advent Health - Pepin Heart Institute (Feb 2021-Aug 2021)
- Moffitt Cancer Center (Jan 2019-Dec 2019)
- Brandon Regional Hospital (Jan 2017-Dec 2019)

## EXPERIENCE

### Government Analyst II - Florida AHCA

Jan 2024 - Present

- Manage risk across Florida Medicaid programs, leveraging SQL, Excel, and SAS to analyze data from over 2 million recipients, identifying operational and clinical risks to suggest policy improvements, reducing risk by 12 percent.
- Lead 25+ research initiatives focused on Primary and Preventive Care Policies, ensuring 100 percent regulatory compliance, influencing Medicaid decision-making and improving program efficiency by 25 percent.
- Co-lead of Juvenile Re-entry Project, developing protocols to reduce care disruption for 2,000+ youth annually, ensuring CMS compliance and leading a team of 15+.
- Manage risk-focused portfolios for high-cost services, including dialysis, biomarker testing, and EPSDT, analyzing statewide utilization trends and flagging performance anomalies, leading to a 13 percent reduction in non-compliant services.
- Develop and deploy proactive tracking and visualization tools to support risk forecasting and compliance monitoring, improving program oversight and efficiency by 18 percent.

### Applied Practice Intern - Hillsborough County OEM

Sept 2023 - Jan 2024

- Supported research on emergency responses to incidents and events in Hillsborough and surrounding counties, contributing to data collection and analysis for program improvement.
- Completing emergency response certifications to improve knowledge of emergency protocol.

### Graduate Intern - SWASTI Health Catalyst

May 2023 - Aug 2023

- Designed and deployed 3 targeted surveys for Anemia Project, gathering data from 500+ patients to inform risk-based program development, improving patient care strategies by 30 percent.
- Contributed to 10+ project presentations, providing strategic feedback to optimize clarity, accuracy, and compliance alignment.
- Utilized SAS and SPSS to generate 30+ reports and dynamic visualizations, uncovering key risk factors and driving data-informed policy recommendations that reduced program risks by 8 percent.

### Graduate Research Assistant - Positive Aging Lab USF

Mar 2023 - Aug 2023

- Team lead of dementia project at VA Hospital, using SAS, SPSS, and SQL to analyze data from over 300 dementia patients, improving participation rates by 15 percent.
- Leveraged advanced data visualization tools to track engagement metrics, resulting in 20 percent improvement in patient participation in rehabilitation and therapy programs.
- Delivered data-driven insights to hospital staff, guiding development of tailored rehabilitation plans, improving patient care outcomes by 10 percent.

### Graduate Teaching Assistant - University of South Florida

Aug 2022 - Aug 2023

- Graded assignments, provided feedback and taught relevant course material to students of Biostatistics at the graduate level.

### Peer Advisor Leader - USF New Student Connections

Sept 2021 - Jun 2022

- Advised on effective time management, studying, and exam preparation, and acted as a referral agent for students.

## PERSONAL PROJECTS

### Reducing Incidence of Gender Selective Abortion in Rural Punjab, India

2022

- Completed a social, epidemiological, and educational/ecological assessment.
- Implemented statistical software such as SAS/SPSS to assess the local burden, suggest a budget, and developed Gantt charts to decrease gender selective abortions by 15 percent in the first 2 years of program implementation.

### Analysis Of The Associations Between CAD And Gender

2022

- Implemented SAS software in order to analyze the associations between Coronary Artery Disease and gender, adjusting for possible confounds of the association.
- Presented findings and suggested further research to potentially decrease the incidence of CAD by 10 percent in Hillsborough County over the next 5 years.

### Puerto Rico and US Virgin Islands Evacuation Survey

2020

- Compiled data and assisted with data entry and sorting procedures. Managed a team of 10, and guided SAS implementation.
- Program reported an increase in participant response by 42 percent at the end of the pilot.
