

TAHMINA ZAIT
QA Automation Engineer

New York, NY | Phone: (949) 922-2172 | Email: tahmina.zait@gmail.com

PROFESSIONAL SUMMARY:

QA Automation Engineer with 5+ years of experience in manual and automated testing across various industries. Skilled in designing scalable automation frameworks, API testing, and CI/CD integration. Strong background in UI and backend validation, cross-browser testing, and Agile collaboration to ensure high-quality software delivery.

TECHNICAL SKILLS:

Automation & Testing: Selenium WebDriver, RestAssured, Cucumber, TestNG, JUnit, Maven

CI/CD & Version Control: Jenkins, Git, GitHub, CI/CD

Development & Tools: IntelliJ IDEA, SQL Developer, Postman

Databases & Backend: SQL, Oracle, MySQL, PostgreSQL

Languages & Scripting: Java, XML, Gherkin, HTML, CSS

PROFESSIONAL EXPERIENCE:

Balyasny Asset Management

QA Automation Engineer

New York, NY

Apr 2022 – Present

- Developed and optimized **Java-based automation frameworks** (Selenium, RestAssured, Postman) for **UI & API testing**, improving test efficiency and reducing API failure rates by **25%**.
- Automated and executed **500+ UI and API test cases**, increasing test coverage by **40%**.
- Integrated **test cases into Jenkins CI/CD pipelines**, cutting test cycle time by **30%**.
- Implemented **BDD using Cucumber and Gherkin**, improving collaboration and test readability.
- Conducted **SQL-based backend testing** (Oracle, MySQL, PostgreSQL) to ensure **data integrity**.
- Executed comprehensive cross-browser and cross-platform testing, ensuring compatibility and seamless user experience across devices.
- Managed **test cases and defect tracking** using **JIRA**, improving test coverage and resolution speed.
- Designed and maintained scalable, data-driven test frameworks, enhancing test reliability for enterprise-level applications.

Blue Apron

QA Engineer

New York, NY

Sep 2019 – Mar 2022

- Designed and executed **manual & automated tests** for retail management applications.
 - Created and executed **300+ manual test cases**, ensuring **comprehensive functional coverage**.
 - Developed **Java-based Selenium WebDriver scripts** for **UI automation testing**.
 - Wrote **SQL queries for backend validation** (Oracle & MySQL).
 - Performed **cross-browser testing** using **Selenium Grid**.
 - Automated test execution with **TestNG & Maven**, implementing **data-driven frameworks**.
 - Defined test cases and collaborated with developers & product managers.
 - Identified, logged, and tracked defects in **JIRA**, expediting resolution and improving software quality.
-

EDUCATION:

- **Bachelor's Degree in Economics**, Eurasian Technology University, Kazakhstan (2014)
- **Associate Degree in Finance**, International Academy of Business (AlmaU), Kazakhstan (2012)
