Dallas, Texas | +14692686907 | txd240009@utdallas.edu | [linkedin.com/in/tanviideore/](https://www.linkedin.com/in/tanviideore/) | github.com/TanviDeore

WORK EXPERIENCE

The University of Texas at Dallas, (Telecommunications Industry Associations)

May 2025 – Present

Java Developer (Part-time)

- Migrated and modernized a legacy **Java MVC** codebase from **JDK 8 to 17**, replacing XML-based configuration with annotations to reduce boilerplate by **40%** and enhance performance.
- Implemented robust backend services using **Spring Security, CAS, and RESTful API** to replace **SOAP**, centralizing user authentication and authorization.
- Modernized frontend with Fetch API; improved maintainability, and code quality via peer code reviews.
- Developed **unit** and **integration** tests and **automated QA using Selenium**, reducing testing cycle time by **90%**.
- Authored **technical documentation** to support **cross-functional** collaboration and ensure reproducibility.

Larsen & Toubro Infotech (now LTIMindtree),

Jun 2022 – Jul 2024

Software Engineer

- Developed multiple **Java/Spring Boot RESTful APIs** within a **microservices** architecture, contributing to both backend and frontend components.
- Applied strong problem-solving skills to debug and resolve message-queue synchronization issues, reducing support tickets by **30%** and saving **5 hours weekly**.
- Collaborated with architects, developers, and product managers **cross-functionally** to analyze system interactions and deliver standardized solutions, boosting data integrity by **40%**.
- Restored automation in **CI/CD** by troubleshooting GitLab pipeline failures, reducing build failures, and ensuring continuous software delivery reliability.

EDUCATION

The University of Texas at Dallas, Richardson, TX

May 2026

Master of Science, Computer Science

GPA: 3.84

Coursework: DAA, Operating Systems, Machine Learning, Artificial Intelligence, Big Data & Analytics.

University of Mumbai, Mumbai, India

May 2022

Bachelor of Engineering, Electronics and Telecommunication

GPA: 3.75

TECHNICAL SKILLS

Programming Languages: Java, Python, C/C++ (academic exposure) SQL, JavaScript, TypeScript, HTML, CSS.

Frameworks & Libraries: Spring, Hibernate, JUnit, Angular, jQuery, AJAX, Hadoop, PySpark.

Cloud Technology, Devops & Tools: AWS, CI/CD, Git, Docker, JIRA, Maven, Jenkins, Selenium, Linux/Unix.

Databases: MySQL, PostgreSQL, Oracle, MSSQL, SQLite, DynamoDB, MongoDB.

Concepts: Object Oriented Programming, Data Structures and Algorithms, Full-Stack Development, Networking Fundamentals (TCP/IP, HTTP/S).

PROJECTS

Distributed Backend Task Framework, (AWS, Microservices, Docker), [github](#)

June 2025

- Engineered a fault-tolerant backend on **AWS**, leveraging **IAM** for secure access control and utilizing **S3** server-side encryption to protect data at rest. Containerized with **Docker** to handle high-throughput tasks via REST APIs.

AI-Powered Pac-Man Navigation Agent, (Python, Search algorithms), UT Dallas,

Sept 2025

- Implemented fundamental and advanced AI search algorithms (**DFS, BFS, UCS, A***) and designed a **custom heuristic** in Python that reduced the search space by over **40%**, enabling optimal solutions for difficult mazes.

Big Data Movie Search Engine, (PySpark, MapReduce, NLP), UT Dallas,

Sept 2025

- Implemented a search engine on movie plot data using **PySpark, TF-IDF, cosine similarity, and NER**, enabling **scalable ranking** and **information retrieval**.

LLM CookBook, (Python, LLM, RAG, Transformer, NLP), UT Dallas, [github](#)

Apr 2025

- Applied **zero-shot and rule-based** classification, labeling allergens, prep time, and servings for recipe retrieval.
- Improved **information retrieval** and search relevance for recipe queries via **FAISS RAG** and handled prep-time outliers using data subsetting, boosting prediction accuracy by **66%**.

CERTIFICATIONS

- Successfully completed AWS Certified Cloud Practitioner, Introduction to Containers(AWS), AWS Cloud Technical Essentials.
