Proficient in SDLC, Agile/Scrum, Kanban, Lean, and Design Thinking methodologies to ensure efficient project execution. Skilled in Python, SQL, and R for advanced data analysis and data modeling, enabling actionable insights and process improvements.

SKILLS

Methodologies: SDLC, Agile/Scrum, Kanban, Lean, Design Thinking.

Languages: Python, SQL, R.

Documentation: Functional Requirements Document (FRD), Business Requirements Document (BRD), MS SharePoint, Confluence, User Stories, Use Cases, Wireframing Tools.

Analysis Skills: Cost/Benefit Analysis, Impact Analysis, GAP Analysis, Risk Analysis, SWOT Analysis, KPI Management, Risk Identification, Data Modeling, Predictive Analysis.

Database Technologies: MySQL, MongoDB, PostgreSQL.

Business Process & Modeling: Microsoft Visio, BPMN, JAD, RTM, UAT, Process Improvement.

Additional Skills: Stakeholder Management, Effective Communication, Facilitation, Negotiation, Change Management, Data Warehousing, CRM Systems, ERP Systems.

EXPERIENCE

SVTRONICS | DALLAS | Business Analyst

OCTOBER 2024 – Present

- Established detailed Functional Requirements Documents (FRD) and user stories, aligning project goals with stakeholder needs, resulting in a 20% reduction in project ambiguity and smoother development cycles.
- Generated compelling data stories in Tableau, transforming complex data into visual insights that improved stakeholder decision-making by 30% and enhanced business outcomes.
- Employed advanced MS Excel functions, including PivotTables, to efficiently clean and analyze large datasets, enabling accurate reporting and insightful decision-making for business strategies.
- Performed in-depth GAP and SWOT analyses to identify process inefficiencies and uncover strategic opportunities, driving actionable insights that optimized business performance and informed decision-making.
- Leveraged MySQL and Python to design and optimize complex database queries and automate data extraction processes, improving data retrieval speed by 30% and reducing manual effort by 20%.

DRUNKEN DUCKS | India | Business Analyst

July 2021 – July 2022

- Designed interactive dashboards in Power BI and automated complex data analyses in Excel, driving a 30% improvement in reporting efficiency and actionable insights.
- Conducted SWOT analyses to identify organizational strengths and opportunities, leveraging strategic and critical thinking to develop actionable strategies that enhanced market positioning by 15%.
- Produced Business Requirements Documents (BRD) and Use Cases to capture and communicate project goals, fostering collaboration between stakeholders and the development team.
- Monitored Key Performance Indicators (KPI) and identified potential risks, ensuring proactive mitigation strategies and driving continuous improvement in business processes.
- Created and managed detailed user stories in JIRA, ensuring clear requirements and seamless collaboration across teams, which enhanced project delivery and reduced development time by 20%.

DRUNKEN DUCKS | India | Junior Business Analyst**May 2019 – June 2021**

- Utilized Trello for effective Scrum project management, organizing tasks and tracking progress, leading to a 25% improvement in team collaboration and a 15% increase in sprint delivery efficiency.
- Constructed data pipelines using Python and PostgreSQL, optimizing query performance and ensuring seamless data processing for analytics.
- Performed UAT to identify potential issues and performed risk assessments, implementing mitigation strategies that reduced project risks by 30% and ensured successful deployments.
- Streamlined project delivery by implementing Agile methodologies within the SDLC, reducing development cycles by 20% and improving cross-functional team collaboration.
- Generated dynamic Tableau dashboards by leveraging Excel data insights, applying problem-solving strategies to drive data-driven decision making and improving reporting efficiency by 40%.

EDUCATION

Master's in information systems,
Saint Louis University, Saint Louis, MO, USA.

CERTIFICATIONS

- Master Class Software Testing with Jira & Agile.
