SUMMARY:

Financial Analyst with **4+ years** of global experience across **FP&A, investment analysis, and strategic financial planning**. Proven success in **budgeting, forecasting, margin/cost analysis, and scenario modeling** for investment and business optimization. Adept at creating **executive dashboards and KPI tracking using Power BI and Tableau, with advanced proficiency in Excel (arrays, pivot charts, modeling)**. Experienced in **ERP systems (SAP, Oracle, NetSuite), real estate feasibility, and credit risk analysis**. Strong cross-functional collaborator with a record of delivering measurable outcomes such as **reducing portfolio risk by 12%** and driving cost savings up to **17%** through data-driven **financial strategy and stakeholder reporting**.

SKILLS:

- **Financial Analysis & Planning:** Budgeting & Forecasting, Scenario Modeling, Cost & Margin Analysis, CapEx Planning, KPI Tracking, Valuation (DCF, NPV, ROI), Strategic Planning
- **Tools & Technology:** SAP, Oracle, NetSuite, Tableau, Power BI, Bloomberg Terminal, Excel (Pivot Tables, Arrays, Index-Match), SQL (Basic)
- **Reporting & Collaboration:** Executive Dashboards, Financial Reporting, Cross-Departmental Coordination (Ops, HR, Supply Chain), Vendor Analysis, Contract Compliance

EXPERIENCE:

Financial Analyst – Moors & Cabot Inc., New York

May 2024 - Present

- Identified trade opportunities based on fundamental analysis and constructed risk-adjusted investment strategies for high-net-worth individuals, incorporating financial planning aligned with client investment horizons and return objectives.
- Conducted portfolio rebalancing and diversification using performance attribution models in Excel; monitored KPIs and adjusted positions based on macroeconomic conditions, resulting in a 15% increase in returns.
- Enhanced portfolio tracking by creating interactive dashboards using Power BI, enabling real-time visualization of KPIs and investment performance trends.
- Collaborated with a diverse team of investment analysts and research specialists to evaluate potential investments, using data analysis, and forecasting to inform decisions and enhance asset allocation, resulting in a 14% improvement in investment decision accuracy.
- Evaluated alternative investments, including private equity, PMS, and real estate opportunities, and achieved successful portfolio diversification, resulting in an 8% reduction in correlation with broader market movements.
- Expanded client base and nurtured business growth by leveraging existing customer relationships, referrals, and networking.

Financial Analyst – Motilal Oswal Financial Services, India

Jul 2022 – Aug 2023

- Delivered detailed cost/margin analysis using Excel and ERP systems (Oracle), supporting cost-reduction strategies that cut expenditure by 8% and improved operating margin.
- Led department-level budgeting using NetSuite ERP and Excel-based forecasting models, achieving less than 6% variance between projected and actual expenses.
- Designed scenario models and "what-if" analysis in Excel for strategic financial planning, supporting a 19% performance improvement over three years.
- Executed product-level revenue forecasting with Tableau dashboards, enabling data-driven revenue forecasting that identified the top 20% revenue contributors.
- Formulated financial feasibility analysis and ROI modeling for commercial real estate opportunities, supporting strategic investment decisions in the real estate vertical.
- Partnered with procurement and legal teams to analyze vendor cost structures and enforce contract compliance using Excel models, achieving 17% cost savings over 2 years.

Junior Financial Analyst – Motilal Oswal Financial Services, India

May 2021 – Jun 2022

- Assessed loan portfolios and performed credit risk analysis, including margin impact and default probability modeling, supporting investment decisions in debt instruments.
- Executed sector-specific industry analysis with a focus on KPIs and risk exposure, supporting investment theses using valuation modeling and scenario comparisons.
- Performed in-depth, sector-specific analysis, evaluating targeted industries' overall health and growth prospects.
- Identified fundamental-driven trade opportunities by collecting data from diverse sources, including financial reports, market surveys, and industry publications. Synthesized gathered data to inform strategic decision-making and optimize trading opportunities.
- Engaged with company stakeholders to assess operational risks, including cost structure and CapEx planning considerations, for more informed long-term investment recommendations
- Crafted clear, concise, and impactful reports. These materials effectively summarized research findings and presented actionable recommendations, facilitating informed decision-making processes within the organization.

EDUCATION:

DePaul University, Chicago, IL	Sep 2023 – Mar 2025
Master of Business Administration (MBA) in Business Analytics & Finance	GPA: 3.3
Vishwakarma University, India	Aug 2019 – May 2022
Bachelor in Business Administration (International Business)	GPA: 3.3

PROJECT:

S&P 500 OUT PERFORMACE PORTFOLIO MANAGEMENT & RISK OPTIMIZATION

- Managed a \$1M multi-asset portfolio, exceeding the S&P 500 benchmark by 3% through risk-optimized allocation and scenario-based modeling in Excel. Developed KPI dashboards in Power BI for ongoing performance tracking and strategy calibration.
- Decreased portfolio risk exposure from 18% to 6% by applying advanced risk management techniques, including diversification and asset optimization.
- Produced detailed weekly performance reports to evaluate portfolio strategies and risk levels, supporting data-driven decision-making and continuous improvement of investment outcomes.
