

Professional Summary:

Seeking to leverage my analytical skills and technical expertise to contribute to innovative data-driven projects, improve data strategy, and support strategic objectives in a dynamic and growth-oriented organization.

Detail-oriented and analytical Data Analyst with a solid foundation in Machine Learning, Data analysis, statistics, and Database management.

Work Authorization:

Authorized to work in the U.S. for any employer and no sponsorship needed now or in the future of an employment-based visa.

Education:

Indian Institute of Technology Madras, India

Bachelor of Science (BS) Degree in Data Science and Applications

Jan 2022 – Till Date

CGPA 7.20/10

Narsee Monjee Institute of Management Studies, Hyderabad, India

Bachelor of Science in Applied Statistics and Analytics

Jun 2020 - May 2023

CGPA 3.05/4.0

Senior Secondary (XII) – Vikas The Concept School

MEC – CBSE Board

June 2018 – May 2020

Score – 89%

Secondary (X) – Bharatiya Vidya Bhavans Public School

CBSE Board

Till 2018

Score – 74%

Technical Skills:

Programming Languages: SQL, R, Python, Java, Linux

Databases: Oracle, MySQL, PostgreSQL, SQLite

Frontend Framework: HTML, CSS, Jinja, Bootstrap, Vue.js

Backend Framework: Flask, SQLAlchemy

Data Visualization: Power BI, Matplotlib, Seaborn, plotly

Machine Learning: Pandas, NumPy, Scikit- Learn, Exploratory Data Analysis, Preprocessing, Model Building

Frameworks & Tools: R Studio, GitHub, Jupiter, Google Colab, Spyder, Edit Plus

Microsoft Services: MS Word, MS Excel, MS Outlook, MS Power Point

Certifications:

- Gene expression – An introduction and hands on experience on data analysis.
 - Introduction to Data Studio from Google Analytics.
 - Data Science Foundational level from Cognitive Class - by IBM.
 - Python for Data Science from Cognitive Class.
 - Foundational Certificate in Programming and Data science from Centre for Outreach and Digital Education (CODE), IIT Madras.
 - Received Gold Medal in Paradox Champions League at IIT Madras Paradox'24.
 - Received certificate in Cricket Data Analysis Using Postgre SQL from IIT Madras.
-

Courses:

- Business Analytics
- Fundamentals of Statistics
- Linear Algebra and Calculus
- Business Data Management
- Data Structures and Algorithms
- Micro and Macro Economics

Extracurricular Activity:

- Received Black Belt in Shaolin Kung Fu Karate
-

Academic Projects:

Machine Learning project in Kaggle

June 2024 – Dec 2024

IIT MADRAS MLP PROJECT

Roles and Responsibilities:

Worked on Machine Learning project provided by IITM in Kaggle competition, which is to “Predict the Success of Bank telemarketing”.

Steps Used:

Exploratory data analysis

Detecting missing data and imputation, if required

Dataset is appropriately pre-processed

Appropriate usage of pipelines

Feature engineering/extraction

Hyperparameter tuning of the model to optimize its performance.

Tools used: Python, Seaborn, Matplotlib, Pandas, numpy, Scikit-learn.

SINGLE POINT SOLUTIONS (SPS), HYDERABAD

Software Developer Intern- Volta Services Pvt Ltd:

Feb 2024 – May 2024

Volta is about Fast and Convenient taxi booking service.

Roles and Responsibilities:

Collaborate with senior developers to develop high-quality software solutions. I analyzed data using SQL, extracting insights from large datasets stored in the company's databases. I wrote queries to join multiple tables and provide detailed reports. I conducted statistical analysis on business-critical data with the help of Python's libraries, such as Pandas and NumPy.

Tools used: Python, Excel, SQL, ORM, PostgreSQL

Vasudha Pharma Chem Limited, Hyderabad

Sep 2023 – Jan 2024

IIT MADRAS BDM PROJECT

Roles and Responsibilities:

How the inventory is performing based on stock in and outs and customer purchases.

Optimized inventory management to minimize stock outs and reduce excess inventory.

Addressed the issue of expired or obsolete inventory and developed strategies for effective inventory rotation.

Tools used: Python, SQL, Excel.

The Sparks Foundation Pvt. Ltd

May 2022 – Jul 2022

Worked on Exploratory Data Analysis, preprocessing data and building models.

Used Pandas for cleaning the data such as checking for Null Values, Duplicates etc.

Used Scatter Plot to show the relationship between Hours Studied and Marks obtained and how they not linearly related.

Used train-test split to train the model evaluate the final model's performance.

Tools used: Python, Pandas, NumPy, Scikit- Learn, Matplotlib, Seaborn, plotly.

BRIISK Pvt. Ltd

May 2021 - Jun 2021

BRIISK, an Insurance and Financial Technology start-up company.

- Learned about Health insurance, sales and Digital Marketing. The first task I completed was to get as many likes and followers as possible for Myra's Academy, an online platform to learn in-demand skills from working professionals.
- The second task accomplished was to write a testimonial on any of the courses, that Myra's Academy provides, in a word file.
- Got 5 star rating for my Testimonial
- The third task done by me was to answer a Quora question of any individual so that it would aid in the marketing of Myra's Academy.
