

Teja Reddy Lekkala | Full Stack Developer

CA, USA | +1 (703)-926-4643 | teja.ltr9089@gmail.com | LinkedIn

SUMMARY

Full Stack Developer with 3 years of experience designing and building scalable web applications using React.js, Node.js, Express.js, and MongoDB. Experienced in developing cloud-native solutions on AWS, implementing CI/CD pipelines with Jenkins and GitHub Actions, and optimizing application performance for high-traffic environments. Skilled in RESTful API integration, microservices architecture, and front-end development with responsive, pixel-perfect designs. Adept at collaborating with cross-functional teams, translating business requirements into technical solutions, mentoring junior developers, and delivering maintainable, high-quality code in Agile development environments.

TECHNICAL SKILLS

Programming & Scripting: JavaScript (ES6+), Node.js, SQL, MongoDB, Express.js

Front-End Development: React.js (Hooks, State Management, Component-Driven Development), Next.js (SSR, SSG, API Routes, Middleware, Routing), HTML5, CSS3, Flexbox, CSS Grid, Responsive Web Design, Pixel-Perfect UI Implementation, Accessibility (WCAG Compliance), UI/UX Collaboration

Back-End Development & Frameworks: Node.js, Express.js, RESTful API Integration, Microservices Architecture

Cloud & DevOps: AWS Services (Lambda, S3, API Gateway), CI/CD Pipelines (Jenkins, GitHub Actions), Cloud-Native Solution Design, Application Scalability, Performance Optimization

Version Control & Collaboration: Git, GitHub (Branching Strategies, Code Reviews, Collaborative Workflows), Agile Methodologies (Scrum, Sprint Planning, Stand-Ups, Retrospectives)

Testing & Performance: Unit Testing (Jest), Front-End Performance Optimization, Lazy Loading, Asset Management, Cross-Browser Compatibility

AI & Advanced Tools: AI-Driven Application Enhancements, Automation Integration for Customer-Facing and Internal Tools

Project & Process Management: Translating Business Requirements into Technical Solutions, Collaboration with Product Managers, Architects, Cross-Functional Teams, Mentorship, Internal Knowledge Sharing

EXPERIENCE

Full Stack Developer | Capital One | CA, USA

Jan 2025 – Present

- Developed full-stack web applications using React.js, Node.js, Express.js, and MongoDB, improving customer-facing workflows and internal tool efficiency.
- Designed cloud-native solutions on AWS Lambda, S3, and API Gateway, reducing deployment times by 30% and improving scalability for high-traffic applications.
- Built AI-driven enhancements for customer and agent tools, increasing intelligent assistant response accuracy and reducing query resolution time.
- Implemented automated CI/CD pipelines with Jenkins and GitHub Actions, enabling frequent deployments with proactive monitoring of application health.
- Collaborated with product managers and cross-functional teams to translate business requirements into technical solutions aligned with cloud architecture best practices.
- Mentored junior developers, conducted code reviews, and shared best practices for MERN stack development and cloud-native solutions.

Front End Developer | Hexaware Technologies | India

Jun 2021 – Jul 2023

- Developed responsive web applications using React.js and Next.js, leveraging server-side rendering (SSR) and static site generation (SSG) to improve performance, SEO, and user engagement.
- Worked closely with UX/UI designers and back-end developers to convert wireframes into pixel-perfect, accessible front-end interfaces, ensuring cross-browser compatibility and optimized rendering with Next.js routing.
- Optimized front-end performance with lazy loading, asset management, and modern JavaScript techniques, reducing page load times and enhancing navigation speed across large-scale applications.
- Integrated RESTful APIs and Next.js API routes to synchronize front-end interfaces with backend systems for real-time data updates in banking, insurance, and healthcare projects.
- Used Git/GitHub for version control, performing code reviews, branching, and CI practices to maintain high-quality, maintainable code across collaborative projects.
- Participated in Agile development cycles, including sprint planning, daily stand-ups, and retrospectives, contributing to iterative delivery and effective stakeholder communication.

EDUCATION

Masters in Information Technology Washington | University of Science and Technology, Virginia, USA

Jun 2025

Bachelors in Computer Science and Engineering | Sri Venkateswara College of Engineering, India

Jun 2023
