SUMMARY

Frontend Developer with 3 years of experience designing and building modern, responsive, and user-friendly web applications. Specialized in **Angular** (v9–15), with strong expertise in **TypeScript**, **JavaScript**, **HTML5**, **CSS3**, and **REST API** integrations. Adept at translating business requirements into scalable UI solutions, ensuring accessibility (**WCAG/ADA compliance**), and optimizing application performance. Proven ability to deliver high-quality applications in **Agile** teams using **CI/CD** pipelines and cloud-based deployments.

TECHNICAL SKILLS

Languages:	TypeScript, JavaScript, HTML5, CSS3, SCSS
Web Technologies:	REST APIs, JSON, Responsive Web Design, ADA/WCAG Compliance
Frameworks & Libraries:	Angular (v9–15), RxJS, NgRx, Bootstrap, Tailwind CSS, React.js (basic)
Databases:	MySQL, MS SQL Server, Mongo DB, Redis, PostgreSQL
Cloud:	AWS (EC2, Lambda, RDS, S3, CloudWatch), Azure (Azure Active Directory)
Security:	Spring Security, OAuth 2.0, HIPAA Compliance
Methodologies:	Agile/Scrum, SDLC, CI/CD
Tools:	IntelliJ IDEA, Visual Studio Code, PyCharm, Git, GitHub, Azure DevOps, Postman, Jira
Other:	C#, .NET, ASP.NET Core, Figma, REST APIs, GraphQL, Microsoft 365,

POFESSIONAL EXPERIENCE

Ford Motor Company Jun 2024 – Current
Software Developer

- Designed and developed **Angular 14** financial dashboards for enterprise clients, integrating multiple backend APIs.
- Implemented **Tailwind CSS** + Angular Material for a scalable, modern design system used across projects.
- Improved page load performance by 40% via lazy loading, optimized modules, caching, and code splitting.
- Assisted in setting up **CI/CD** pipelines with **Azure DevOps**, enabling faster deployments.
- Integrated with **AWS Lambda** and Azure App Services for secure and scalable API consumption.
- Led accessibility initiatives, ensuring compliance with **ADA/WCAG** standards (JAWS/NVDA support, ARIA, contrast fixes).
- Implemented end-to-end testing with Cypress and unit tests with Jasmine/Karma, achieving 90%+ test coverage.
- Tested APIs with **Postman** before integration, reducing frontend/backend defects.

Cognizant Technology Solutions, India Jun 2021 – May 2022
Frontend Developer

- Built and maintained **Angular 12** customer portals supporting 5,000+ users, implementing dashboards, reports, and profile management.
- Integrated state management using **RxJS** and **NgRx**, ensuring smooth data flow and reduced **API** calls.
- Developed reusable UI components (data tables, dropdowns, modal dialogs, pagination, filters), reducing future development effort by 30%.
- Enhanced UI performance with lazy loading, route optimization, and caching strategies, reducing load times by 25%.
- Collaborated with designers to deliver **WCAG 2.1**-compliant accessible UI (keyboard navigation, ARIA roles, screen reader support).
- Implemented **JWT-based authentication** and role-based UI controls integrated with backend APIs.
- Conducted unit testing with Jasmine/Karma and API testing with Postman, improving reliability and reducing production bugs.

HCL Technologies, India Jun 2020 – May 2021
Frontend Developer Intern

- Assisted in developing **Angular 10** e-commerce modules, including product catalog, search filters, and shopping cart.
- Designed responsive UI layouts using **Bootstrap** and **SCSS**, ensuring smooth experience across devices.
- Worked on **API** integration with **REST** services for order history and payment details.
- Debugged cross-browser compatibility issues, ensuring consistent performance on Chrome, Edge, and Firefox.
- Documented UI workflows and contributed to **Agile** sprint planning and code reviews.

PROJECTS

Learning Hub Portal | Angular, Angular Material, Tailwind CSS, Firebase, Cypress

- Developed a responsive e-learning portal with course listings, video playback, and progress tracking, deployed on Firebase Hosting. Applied **Angular Material** + **Tailwind CSS** for a scalable design system, ensured **WCAG** accessibility compliance, and added Cypress e2e tests for reliability.

Expense Tracker Pro | Angular, TypeScript, NgRx, Node.js, MongoDB

- Built a full-stack expense management app with **Angular** frontend and Node.js backend, supporting expense categorization, reports, and role-based authentication. Implemented **NgRx** state management for consistent data handling across modules, integrated **REST APIs**, and optimized UI with lazy loading and caching.

EDUCATION

Central Michigan University May 2024
Master of Science in Computer Science.

CERTIFICATIONS

AWS Certified Solutions Architect – Associate - Issued Apr 2024 - Expires Apr 2027Issued Apr 2024
