

TEJASWI KASARANENI

📞 (913)-265-0979 | ✉️ Kasaranenitejaswi246@gmail.com | 🌐 Tejaswi Kasaraneni

EDUCATION

University of Central Missouri (UCM)

Master of Science in Computer Science; CGPA - **3.50/4.0**

Lakireddy Bali Reddy College of Engineering

Bachelor of Technology in Information Technology; CGPA – **9.46/10.0**

Missouri, United States

Jan 2024 – Dec 2025

Andhra Pradesh, India

August 2019 – May 2023

TECHNICAL SKILLS

Programming Languages: Swift, Java, Java Script, SQL, Ruby, PHP, Python, HTML, Web Applications

Tools & Frameworks: Xcode, Android Studio, Git, Agile Development Practices.

Mobile Development: iOS Development, Android Development, RESTful APIs, Cross-platform Mobile Development.

Other Skills: Strong written and verbal communication, effective problem-solving, collaborative teamwork.

EXPERIENCE AND PROJECTS

Java Full Stack Developer Intern

May 2022 - May 2023

Wipro TalentNext

- Streamlined user experience with front-end development utilizing HTML, CSS, and JavaScript.
- Ensured application security by integrating authentication mechanisms like OAuth 2.0 or JWT tokens into server-side APIs.

AWS Cloud Virtual Intern

Mar 2022-May 2022

AWS

- Integrated **AWS solutions** (EC2, S3, Lambda), into cloud-based applications, automating workflows and reducing manual workload by 35%, leading to increased development speed and reliability.
- Led a 4-member team, completing 2 cloud-based projects ahead of schedule.

Machine Learning Intern

Jul 2023 to Sep 2023

Apssdc

- Deployed Python's libraries and frameworks to build models that can learn from data and make predictions or decisions.
- Used ML libraries like scikit-learn, TensorFlow and PyTorch as well as its readability and ease of use.

Software Developer Intern

Jan 2023 - May 2023

CSS Corp (Movate)

- Worked on the development of a **JAVA Spring Boot-Based** NLP application designed to empower users by extracting relevant information from natural language sentences, through the development of efficient REST APIs.
- Implemented user input preprocessing using client libraries such as **Stanford Core NLP** and **APACHE OPEN NLP**

Cryptocurrency Price Prediction Using Machine Learning

Aug 2024 to Dec 2024

Project

- Enhanced methodology for hybrid artificial neural network, long short-term memory, and Bayesian optimization with 70% accuracy.
- The prices of bitcoin and their technique were forecasted using recurrent neural networks, which are the state-of-the-art algorithm for sequential data and are utilized by Apple Siri and Google Voice Search.

PUBLICATIONS AND CERTIFICATIONS

- Certification On Python Data structures from **University of MICHIGAN - COURSERA**
- **BLOCK CHAIN TECHNOLOGY AND APPLICATION TECHNOLOGY** From **CHARIOT**
- **Earned certification from CISCO** - Programming Essentials in C
- **CISCO** - PCAP; Programming Essentials in Python
- Earned Certificate from Deloitte on **Technology Job Simulation**
- **Published Paper on Currency Prediction Research on 2nd International Applied Artificial Intelligence and Computing (IEEE)**
