EDUCATION

University of Massachusetts Dartmouth, North Dartmouth, MA, USA

MS in Computer Science

May 2025

CGPA – 4.0/4.0

SSN College of Engineering, Chennai, TN, India

B.E. in Electronics and Communication Engineering

Jun 2023

CGPA – 9.085/10.00

WORK EXPERIENCE

Intern-Technology (Data & Analytics | AI/ML – Delivery)

Virtusa Corporation, USA

Jul 2025 – Present

- Contributing to the Automated Pricing Project, which builds fully automated pipelines for renewals, saves, and acquisition pricing using Google Vertex AI.
- Gained hands-on exposure to data ingestion, model retraining, and model inference orchestration in cloud-based pipelines.
- Supporting the team in documenting workflows and exploring ways to optimize automated ML retraining cadence.

Product and Platform Engineering Project Intern

Altimetrik India Pvt Ltd, India

Jun 2024 – Aug 2024

- Developed a custom resume and job description parser in Python with spaCy, improving candidate-job matching accuracy by training a tailored NER model on annotated resume data.

PROJECTS

Deep Learning Based Ransomware Detection and Prevention in Enterprise Networks

Sept 2024 – Apr 2025

- Built and compared deep learning models to detect and classify ransomware threats in enterprise environments.
- Applied feature engineering, data cleaning, class balancing, and normalization to boost accuracy; achieved 81.17% accuracy using a hybrid CNN-LSTM model.

A Novel method for handwritten digit recognition system

Aug 2022 – Nov 2022

- Designed a system that will recognize handwritten digits using Artificial Intelligence.
- Created and tested the model and built a user interface using python language; achieved 99% accuracy.

SKILLS

Technical skills: Deep Learning, Artificial Intelligence, Feature Engineering, Natural Language Processing, Named Entity Recognition, Neural Networks, SQL, NoSQL, Tensorflow, Keras, PyTorch, API documentation, Prompt Engineering, Gen AI, MLOps.

Programming Languages: Python, C++, JavaScript, C.

Tools & Platforms: VS code, Google Colab, Jupyter Notebook, BigQuery, Amazon Web Service, Microsoft Azure, Databricks, Vertex AI.

AWARDS

CIS Graduate Faculty Award

Apr 2025

Awarded by the University of Massachusetts Dartmouth for outstanding academic excellence, achieving a perfect 4.0 GPA and ranking among the highest-performing students in the Computer and Information Sciences department.

CERTIFICATIONS

Machine Learning, Data Science, and Generative AI with Python

Udemy

July 2024

Gained hands-on expertise in machine learning, data science techniques, and generative AI using Python.

Key skills: TensorFlow, Python, and neural network development.
