Experience

Hartford Financial Service Group – CT, USA

Mar 2024 – Present

Business Analyst

- Collaborated with cross-functional teams to gather and document **business requirements**, aligning project goals with **stakeholder** needs.
- Conducted **stakeholder workshops** and walkthroughs to validate requirements and ensure alignment with **business goals**.
- Facilitated **Agile** ceremonies including **sprint planning**, **backlog grooming**, and **daily stand-ups** to maintain project momentum.
- Developed **user stories**, **epics**, and **acceptance criteria** in **JIRA** and maintained project documentation in **Confluence**.
- Led data-driven analysis using **SQL** and **Power BI** to support strategic decision-making and product enhancements.
- Created **process maps** and **wireframes** using **Visio** and **FIGMA** to support development and stakeholder clarity.
- Partnered with **QA teams** to develop **UAT** scenarios and support defect triaging during **testing** cycles.
- Monitored and mitigated **project risks** while ensuring compliance with **GDPR** and internal **data policies**.

Capri Global – Mumbai, India

Apr 2018 – Apr 2022

Business Analyst

- Led 17 marketing units and 11 sales associates, increasing user Dynamics 365 ERP & CRM adoption
- Gathered **business** and **functional requirements** through **stakeholder interviews** and **workshops**.
- Documented **use cases** and **process flows** to support new feature development and **process enhancements**.
- Participated in both **Agile** and **Waterfall** project lifecycles depending on team structure and scope.
- Produced reports using **Excel** and **SQL** to identify **business trends** and support **process optimization** efforts.
- Assisted in **UAT coordination** and created **training documentation** for internal users' post-deployment.
- Maintained **SharePoint**-based documentation repositories and **change logs** to ensure traceability.
- Collaborated with **developers**, **testers**, and **product owners** to ensure clear understanding of requirements.
- Delivered detailed reporting on **KPIs**, **project progress**, and **impact metrics** to **senior management**.

Projects

Bank Loan Default Prediction | Snowflake SQL

- Analyzed financial data for 100K borrowers using SQL on Snowflake Layers to implement the three-layer medallion architecture: bronze, silver, and gold. Archived 96% accuracy in predicting loan defaulters.

Palisades Fire Incident Data | SQL, Power BI

- Developed ArcGIS maps in Power BI to visualize active and inactive fire incidents, including acres burned, by integrating real-time data from <https://www.fire.ca.gov/incidents> and providing live updates through seamless ArcGIS connectivity.

Education

- **Masters in Business Analytics and Finance** - Lewis University | Romeoville, IL
- **Bachelors in Civil Engineering Tech** - KL University | Guntur, India

Certification

- **Agile-Business Analyst** - North-Eastern Illinois University | Chicago, IL [Link](#)
- **ESG Sustainability Reporting** – Udmey [Link](#)
