SUMMARY

Full Stack Developer with 5+ years of experience in designing and delivering high-performance web applications using Java Spring, AngularJS, React, and AWS. Proven expertise in optimizing application performance, enhancing user experiences, and increasing customer satisfaction through innovative development and collaboration with cross-functional teams.

PROFESSIONAL EXPERIENCE

Software Development Engineer, Amazon.com Services LLC | Seattle, WA

Sep '22 - Aug '24

Skills – Java, React JS, Typescript, AWS (Lambda, S3, EC2, DynamoDB), Docker, Git, Jenkins, RESTful API's, SQL, JUnit, Agile.

- Architected and implemented scalable retail technology solutions, boosting customer satisfaction by 20% through better synchronization of physical and virtual inventory counts.
- Engineered and launched React JS front-end applications, improving inventory accuracy by 30% and elevating customer satisfaction scores for Amazon Physical Stores.
- Optimized system performance for high-traffic scenarios, ensuring 99.9% uptime during peak retail periods.
- Led cross-functional team collaborations, achieving a 95% project success rate while adhering to Agile methodologies.
- Developed cloud-native solutions using AWS (Lambda, S3, EC2), reducing cold start issues by 60% and infrastructure costs by 40%, while maintaining high availability.
- Maximized performance monitoring strategies, reducing server response times by 30% and decreasing system downtime by 25%, boosting operational efficiency by 35%.

Full Stack Developer, Tekizma India Solutions PVT LTD | Bengaluru, India

Jul '18 - Dec '20

Skills – Java, Spring, Oracle DB, RESTful API's, Angular, JSON, Git, Maven, JUnit, Agile, Profiling Tools, Confluence.

- Designed high-performance web solutions with Java Spring, AngularJS, and Oracle DB, achieving a 50% improvement in load times.
- Launched an interactive dashboard that streamlined conflict resolution, increasing user productivity by 30%.
- Spearheaded weekly client demonstrations, driving a 95% client satisfaction rate through transparent communication.
- Constructed responsive web pages with HTML5, CSS3, jQuery, and AngularJS, ensuring seamless JSON data integration and improved user experience.
- Established design documentation and user flow discussions framework, reducing development cycle time by 25% and enhancing deliverable quality.

Junior Developer, Tekizma India Solutions PVT LTD | Bengaluru, India

Dec '17 - Jun '18

Skills – Java, Spring, Angular, HTML, CSS, jQuery, Maven, Git, PostgreSQL, JSON, RESTful API's.

- Maintained a healthcare web system with Java, Spring, and AngularJS, improving user engagement by 25%.
- Crafted responsive web interfaces with HTML5, CSS3, and jQuery, improving load speeds by 30% and boosting user satisfaction by 15%.
- Collaborated in client sessions, leading to a 20% rise in positive feedback on healthcare app functionality.

PROJECTS

University Polling System | Java, SpringBoot, Restful Api's, Google forms Api, OAuth 2.0

May '22

- Programmed an online polling system using Java, Angular, Spring Boot, and MySQL, increasing student participation by 40% and reducing manual data processing by 60%.
- Configured RESTful APIs and integrated Google Forms API, enhancing user authentication efficiency by 35% and reaching over 15,000 users.

E-commerce Analytics board | Java, Angular, Tableau, MongoDB, Google Analytics Api

Dec '21

- Evaluated "Analytics Insight Hub" with Google Analytics data, improving e-commerce conversion rates by 30% through advanced data processing with Java, Spring Boot, and Angular.
- Created data visualizations for traffic and user behavior analysis, boosting targeted marketing efficiency by 25% and revenue by 20% for the Google Merchandise Store.

TECHNICAL SKILLS

Programming: Java (Core, Design Patterns, Java EE, SDLC), JavaScript, TypeScript, HTML, CSS, Python, Node.js.

Database and Cloud: Oracle DB, MongoDB, MySQL, SQL, PostgreSQL, GraphQL, AWS (RDS, API Gateway, S3, Lambda, Step Functions, DynamoDB, Amplify, Cognito, Scheduler, CloudWatch) and MS Azure.

Libraries and Framework: Java EE (EJB), Spring, Spring Boot, Hibernate, Microservices, React, AngularJS, jQuery, RESTful APIs, JSON, Mockito, JUnit, Django, Kafka.

Tools and Development Practices: Git, Maven, Spinnaker, Tomcat, Jenkins, Jira, Splunk, Docker, Kubernetes, OAuth 2.0, Postman, IntelliJ, SoapUI, CI/CD, BDD, TDD, Static Code Analysis, Agile, Lean/Kanban, SDLC, SOLID, Code Reviews.

EDUCATION

Masters in Information Technology - Arizona State University | 4.0/4.0

Jan '21 - Jun '22

Bachelors in Computer Science - JNTU | 3.7/4

Aug '13 - May '17
