Data Analyst & Tableau Developer

PROFESSIONAL SUMMARY:

As an adept Tableau developer, I specialize in translating intricate data into meaningful visual representations. My track record demonstrates success in guiding prosperous projects, fostering interdisciplinary teamwork, and overcoming challenging data obstacles. I am passionate about applying these skills in a vibrant setting that prioritizes innovation and exceptional performance. My commitment to continuous education and advancement perfectly complements the needs of progressive-minded teams.

PROFESSIONAL EXPERIENCE:

Data Analyst/ Tableau Developer - Colaberry INC

January 2022 - Present

- Designed and implemented interactive Tableau dashboards, effectively visualizing complex datasets and facilitating data-driven decision-making processes.
- Collaborated with cross-functional teams to identify precise business requirements, crafting tailored Tableau solutions aligned with organizational needs.
- Conducted performance tuning and optimization of Tableau workbooks, ensuring efficient data processing and seamless visualization rendering.
- Developed custom calculations and advanced analytics using Tableau's functionalities and scripting languages, extracting actionable insights from data.
- Demonstrated expertise in creating compelling Tableau reports and dashboards, seamlessly amalgamating data from diverse sources for comprehensive insights.
- Innovatively designed dynamic and captivating Tableau desktop dashboards, serving as a conduit for delivering impactful insights to stakeholders.
- Leveraged Tableau capabilities to craft action filters, parameters, calculated sets, groups, and hierarchies, enhancing dashboard interactivity and depth.

ENVIRONMENT: MS SQL Server, Data Visualization, Dashboard Development, Data preparation, SQL Reporting Service (SSRS), Excel Source, OLTP Source, and Tableau

Business Intelligence Developer - Cottonwood Financial

June 2019 - January 2022

- Orchestrated the meticulous creation of SSIS packages, implementing robust error-handling procedures to ensure the integrity of finalized packages.
- Collaborated closely with analysts and department leaders to intricately craft, develop, and customize reports and comprehensive reporting packages, leveraging SQL Server, SSIS, SSRS, SSAS, and Tableau.
- Employed advanced techniques such as data blending, complex joins, and precise table relationships within Tableau to synthesize intricate datasets into insightful visualizations.
- Demonstrated proficiency in report development by expertly utilizing T-SQL queries, user-defined functions, stored procedures, common table expressions (CTEs), temporary tables, and views, while consistently optimizing SQL queries for efficiency.
- Translated data into simple business terms and formats for seamless integration and use across various departments.

ENVIRONMENT: MS SQL Server, integration service (SSIS), SQL Reporting Service (SSRS), Excel Source, XML source, OLTP Source, and Tableau

EDUCATION AND CERTIFICATION:

- Bachelor's Degree University of Colorado, Denver
- Certified Data Analytics and Tableau

TECHNICAL SKILLS:

- Tableau Desktop and Tableau Server,
- Data visualization,
- SQL Procedures,
- SQL Server Integration Services (SSIS),
- Extract, Transform, Load (ETL),
- OLAP,
- Reporting Service
