PROFESSIONAL SUMMARY

Aspiring Data Analyst with strong skills in data analysis, business intelligence, and cloud technologies. Proficient in SQL, Python, Power BI, and AWS, with hands-on project experience. Passionate about transforming complex data into actionable insights to support data-driven decision-making.

EDUCATION

Master of Science in Business Analytics, Wichita State University, Wichita, KS Aug 2024 – May 2026
Relevant Coursework: Database Management, Data Analysis, Data Visualization, Cloud Computing
Bachelor of Business Administration, Janapriya Multiple Campus, Nepal Nov 2018 – Nov 2023

EXPERIENCE

Graduate Assistant, Wichita State University, Wichita, KS Feb 2025 – Present

- Pulled and analyzed student enrollment data using Excel to support reporting and data-driven decision-making.
- Handled 40+ emails per week, ensuring timely communication and smooth coordination across stakeholders.
- Maintained and updated student databases in MS Access, improving data accuracy by 25% and reducing time spent on administrative tasks.

Banking Intern, Rastriya Banijya Bank Limited (RBBL), Pokhara, Nepal Apr 2023 – Jun 2023

- Analyzed customer financial data and creditworthiness using Excel, directly impacting profitability by increasing loan approval efficiency by 10% and accelerating credit report preparation.
- Used Excel for data management and pivot table analysis to spot financial trends.
- Handled account operations while maintaining full KYC/AML compliance, resolved client questions, and improved customer satisfaction by 20%.

SKILLS

Programming & Databases: Python, R, SQL (Joins, Views, Aggregations) Google BigQuery, MS Access
Reporting & Visualization: Power BI (DAX, Power Query), Tableau, Matplotlib, Seaborn
Cloud & Data Engineering: AWS (S3, Lambda, EC2, VPC, Glue, Redshift, Athena), MS Azure
Software & Tools: MS Excel (Pivot Tables, VLOOKUP, INDEX-MATCH), PowerPoint, MS Word, Alteryx
Soft Skills: Problem-Solving, Attention-to-Detail, Collaboration, Analytical and Critical Thinking Skills

PROJECTS

Stroke Prediction Analysis | Kaggle Dataset

- Collected, cleaned, pre-processed, and analyzed healthcare data using Pandas and Scikit-learn, performed EDA to discover patterns and trends, and Matplotlib and Seaborn for visualization.
- Built and tested classification predictive models (Logistic Regression, Random Forest), evaluating predictive performance using metrics such as F1 Score and ROC Curve.

Comparative Sales Analysis Dashboard | Power BI

- Created interactive Power BI dashboard to compare current vs. previous year sales, budgeted sales, YOY growth, and sales forecasts.
- Developed data models with tables, calculated columns, and DAX measures to track KPIs and visualized insights with trend lines, forecasts, and category breakdowns for data-driven sales evaluation.

Serverless Event-Driven ETL Pipeline | AWS

- Automated ETL workflows using AWS Lambda and Python (Pandas) to flatten complex JSON into Parquet, optimizing data structure for high-performance analytics.
- Enabled serverless SQL querying via Amazon Athena by orchestrating AWS Glue Crawlers to automate schema discovery and metadata updates for immediate business intelligence.

CERTIFICATIONS

Google Professional Data Analytics Certificate, Coursera (Jul 2025)
AWS Data Engineering, AWS Academy (Nov 2025) | **AWS Cloud Foundations**, AWS Academy (Sep 2025)
SQL Essential Training, LinkedIn Learning (Feb 2025)

ACHIEVEMENTS

- Participated in World Youth Festival, Russia (Mar 2024)
- Ranked 1st in Nepal with 3.99 CGPA in BBA 3rd semester
- Topped High School entrance exam and received full scholarship
