PROFESSIONAL EXPERIENCE

Tenet Healthcare, TX, USA

Jan 2024 – Current

Business Analyst

- Collaborated with cross-functional teams to gather, analyze, and document business requirements for improving healthcare processes and operations, ensuring alignment with organizational goals.
- Developed and implemented data-driven solutions by conducting in-depth business analysis to identify trends and opportunities for process improvements.
- Worked closely with stakeholders to understand pain points, facilitated requirements workshops, and defined project scopes for various healthcare initiatives.
- Utilized data visualization tools like Power BI and Tableau to present actionable insights on key performance indicators (KPIs), patient outcomes, and operational efficiency.
- Supported the design and deployment of process optimization strategies, automating workflows, and enhancing reporting mechanisms to improve decision-making and reduce operational costs.
- Conducted root cause analysis and provided recommendations for resolving issues related to operational inefficiencies and resource utilization.
- Coordinated with IT teams and data analysts to ensure seamless data integration and reporting, adhering to data governance standards.
- Managed stakeholder communication, ensuring transparency on project timelines, milestones, and deliverables.

R financial, India

Aug 2021-July 2022

Business Analyst

- Analyzed financial statements, identified trends, and presented reports with insights on cost reduction, revenue growth, and process improvements.
- Supported the creation of annual budgets and forecasts by building financial models to inform investment decisions and resource allocation.
- Partnered with finance and operations teams to gather requirements and translate them into actionable tasks for process optimization and informed decision-making.

- Ensured compliance with financial regulations, conducted risk assessments, and provided mitigation strategies to minimize financial exposure.
- Acted as a liaison between senior management and business units, delivering presentations and summarizing key financial insights and recommendations.
- Conducted market research and competitor analysis to provide insights on trends, helping leadership refine strategies for better market positioning.
- Identified process inefficiencies and recommended improvements, increasing productivity by 15% in finance-related functions.
- Tracked financial performance against targets, created variance reports, and advised management on corrective measures to stay aligned with financial goals.

Intex Technologies, India

Jul 2020 – Aug 2021

Business Analyst

- Conducted market research through surveys, data analysis, and competitor benchmarking, providing insights that shaped product development and marketing strategies.
- Collaborated with supply chain teams to identify inefficiencies and implemented cost-saving measures, reducing operational costs by 10% and streamlining workflows.
- Assisted in financial forecasting and budgeting, analyzing historical data to create monthly and quarterly reports with data-driven recommendations for resource allocation.
- Contributed to business strategy development by analyzing product performance and market opportunities, leading to a 5% improvement in sales across key product lines.
- Identified business challenges through gap analysis and proposed process improvements, resulting in enhanced operational performance and reduced turnaround times.
- Facilitated communication between stakeholders, ensuring alignment on project goals and progress through regular meetings, risk management, and updates on timelines.
- Developed data reports and visual presentations using Excel and PowerPoint to provide clear insights into business metrics, enabling executive decision-making.

Intex Technology

Jan 2020 – Jun 2020

Business Analyst Intern, India

- Collaborated with cross-functional teams to analyze business processes, identify inefficiencies, and recommend actionable improvements for supply chain and operations.
- Conducted market research and competitor analysis to assess business opportunities and potential risks, presenting findings to senior management for strategic decision-making.
- Assisted in developing and optimizing financial models, providing key insights into cost management, budget forecasting, and resource allocation.
- Monitored performance metrics for ongoing projects, creating detailed reports to track progress, identify bottlenecks, and ensure alignment with company goals.
- Prepared and presented data-driven business reports for department heads, supporting decision-making for process improvements and operational changes.
- Supported stakeholder meetings by compiling relevant data, documenting key decisions, and providing insights into business operations and performance optimization.
