I am a data-driven professional with over 3 years of experience in data analysis, data engineering, and cloud computing. I excel at translating complex data into actionable insights to enhance product design and functionality. With strong technical skills in Python, SQL, PySpark, Hadoop, and Adobe Analytics, I collaborate effectively with cross-functional teams to drive product improvements. My excellent communication skills and problem-solving abilities make me a valuable asset to any team.

PROFESSIONAL SUMMARY

Data-driven professional with over 3 years of experience in data analysis, data engineering, and cloud computing. Proven ability to analyze large datasets, extract actionable insights, and develop data-driven recommendations to enhance product design and functionality. Expertise in Python, SQL, PySpark, Hadoop, GCP, and Adobe Analytics. Strong communication and presentation skills, with a track record of collaborating with cross-functional teams to drive product improvements and optimize user experiences.

WORK EXPERIENCE

Excelerate

Data Visualization Intern (Saint Louis, Mo) (Aug 2023 - Oct 2023)

As a Data Visualization Intern at Excelerate from Sept 2023 to Oct 2023, responsible for collaborating with a global team, preparing data for analysis, and translating complex research into actionable visual insights.

- Conducted deep dives into user interaction data to uncover usage patterns, identify trends, and detect anomalies.
- Developed regular reports and dashboards to provide clear insights into customer interactions and campaign performance.
- Collaborated with a global team to translate complex research questions into actionable insights through data visualization.

Achievements:

Recognized as part of the 'Star Performer Team' for exceptional teamwork, collaboration, and exceeding project expectations.

Cognizant Technical Solutions

Program Analyst (Chennai, India) (Apr 2021 - Dec 2022)

As a Program Analyst at Cognizant Technical Solutions from April 2021 to December 2022, responsible for implementing Adobe Analytics solutions, conducting data analysis for campaign optimization, collaborating with cross-functional teams, and managing project workflows.

- Implemented Adobe Analytics solutions to enhance campaign tracking and reporting, including defining custom events, variables, and JavaScript customizations.
- Performed data analysis to identify trends and generate actionable insights for optimizing marketing campaigns and improving ROI.
- Collaborated with cross-functional teams, including clients, developers, and third-party vendors, to implement tagging strategies and improve reporting on key performance indicators (KPIs).
- Utilized A/B testing and experience targeting techniques using Adobe Target to optimize web personalization strategies and enhance user engagement.
- Gathered and documented business requirements, authoring Business Requirement Documents (BRDs) to ensure project alignment and facilitate effective development.

Achievements:

- Improved campaign tracking accuracy by 30% by implementing customized Adobe Analytics solutions.
- Identified key trends through predictive, search, and keyword analysis, resulting in a 20% improvement in campaign ROI.
- Streamlined project workflows by managing over 50 tickets in Jira and Asana, ensuring efficient task management and collaboration.
- Successfully boosted web personalization engagement rates by 25% through effectively executing A/B testing and experience targeting.

Cognizant Technical Solutions

Intern (Chennai) (Dec 2020 - Apr 2021)

- Gained practical experience in data analysis, utilizing tools such as Hive, Hadoop, PySpark, SQL, and Python to support real-time data projects.
- Contributed to data-driven solutions by collecting, cleaning, and analyzing large datasets, ensuring data accuracy and integrity.
- Collaborated with experienced data analysts to understand data requirements, implement analysis techniques, and interpret results.

SKILLS

Technical Skills: Python, SQL, PySpark, Hadoop, GCP, Data analysis, Data Pipelines, Adobe Analytics, Data visualization, Cloud Computing, Fastload Scripting, Unix Commands, AWS Redshift, AWS Athena, Dashboard Testing, DQF Rules Implementation, Google analytics, Tealium, Adobe Target, Adobe Segmentation, Power Bi, Tableau, A/B Testing, Regression Analysis, Data analysis, digital marketing space, Tagging, Recommendations, Web analytics, Data validation, Documentation, Analytics tagging and implementation, Adhoc reporting and dashboarding, Activity optimization

Soft Skills: Communication, Teamwork, Problem-solving, Adaptability, Analytical, Leadership, Time management, Stakeholder management, Creativity, Attention to detail

Core Competencies: Data Analysis & Engineering, Cloud Computing (GCP), Business Intelligence and Reporting, Stakeholder Management and Collaboration, Problem Solving and Analytical Thinking

EDUCATION

Saint Louis University, Saint Louis, MO

(January 2023 - December 2024)

Master of Science, Computers & Information Systems - 3.82

Jawaharlal Nehru Technological University, Andhra Pradesh, India (June 2016 - December 2020)

Bachelor's in information technology -3.2

CERTIFICATIONS

- **CBDA - CERTIFICATION IN BUSINESS DATA ANALYTICS** (INTERNATIONAL INSTITUTE OF BUSINESS ANALYSIS - 2024)
- Rural Problem Survey Volunteer (JNTU - 2020)
- Tealium, Google Analytics, Segmentation, and Marketing (Workplace 2022 - 2020)
- Wealth from Waste Volunteer (JNTU - 2019)
- Ethical Hacking Workshop (IIT Bhubaneswar - 2017)
- Presentation Champion (IN & OUT OF JNTU)

ACHIEVEMENTS

- Led an international team during a virtual internship, improving collaboration across time zones and cultural differences, resulting in recognition as the 'Star Performer Team'.
- Implemented Adobe Analytics solutions, creating page-level tracking variables, conversion events, and JavaScript customizations, improving campaign tracking accuracy by 30%.
- Delivered predictive analytics, search analysis, and keyword analysis, identifying trends that improved campaign ROI by 20%.

PROJECTS

Placement Management Portal

- Designed and developed a placement management portal to streamline and automate the placement process for college administration.
- Leveraged programming skills to create a user-friendly platform that facilitated communication, application tracking, and placement matching.
- Successfully implemented a solution that significantly improved the efficiency of the college's placement process, resulting in a 40% increase in efficiency.

Content Editor

- Curated and edited high-quality content to enhance user engagement and drive app retention.
- Successfully increased app retention by 15% by implementing a content strategy focused on user needs and preferences.
- Collaborated with the team to develop scripts and storyboards for an informational video, ensuring clarity and alignment with audience expectations.

Global Grad Education Video Project

- Researched key aspects of global graduate education programs to gather relevant information for the video.
- Developed a compelling narrative and created engaging visuals to effectively communicate complex information to a global audience.

HOBBIES

Data Visualization and Exploration (e.g., exploring new tools or datasets), Tech Blogging or Open Source Contributions, Learning New Technologies (especially in cloud or data engineering), Professional Networking and Events, Solving Data Puzzles/Competitions (e.g., Kaggle)

-
- Built documents such as BRD, Base Tag Management document, Third-party tags implementation, Product Definition document, and Tag management document.
 - Debugged and troubleshooted errors, implemented new features in projects.
 - Medium-level expertise in Power BI and Tableau, learned both in work environment and master's program.
 - More than medium-level expertise in SQL.
 - Excellent communication skills, collaborated with different teams and clients to improve conversion rates.
