Summary

Data Analyst with over a year of experience at Infosys, skilled in Python, SQL, and MySQL. Demonstrates expertise in cleaning, transforming, and visualizing data to support strategic decision-making and stakeholder collaboration. Holds a Master's degree in Computer Science and a proven record of developing impactful reports and dashboards to drive business insights.

Education

Southern University and A&M College

Dec 2024

Masters, Computer Science

- **GPA:** 3.75

Work Experience

INFOSYS

Aug 2021 - Dec 2022

Data analyst

Hyderabad, India

- Performed data analysis using Python and MySQL to support business insights and facilitate decision-making.
- Created and maintained SQL queries to retrieve, clean, and transform relational data sets effectively.
- Applied statistical methods to interpret results and guide strategic business decisions.
- Developed interactive reports and dashboards using visualizations to highlight trends for both technical and non-technical stakeholders.
- Enhanced stakeholder engagement through clear and effective presentations and regular client interactions.
- Monitored web analytics with Python and Pandas, identifying key performance indicators and improving digital marketing metrics.

southern university A&M

Jun 2023 - Nov 2024

Graduate Research Assistant

Baton Rouge, Louisiana

- Supported research projects by executing data cleaning, preprocessing, and transformation of large datasets using Python, Pandas, and NumPy.
- Automated scripts to identify and handle missing, duplicate, or inconsistent data across various sources.
- Conducted data manipulation and aggregation to deliver reliable metrics for faculty-led, data-driven research.
- Created detailed data visualizations with Matplotlib and Seaborn to effectively present trends and insights.
- Streamlined data workflows through modular and well-documented Python code, enhancing reproducibility and efficiency.

Technical Skills

- **Framework And Tools:** Spring Boot, Django
- **Programming Languages:** Python, Java, SQL, JavaScript, HTML, CSS, Angular
- **Libraries:** Pandas, Numpy
- **Concepts:** OOP, Data Structures, System Design, OS Internals, Performance Optimization
- **Databases:** MySQL
- **Cloud/Platforms:** AWS, Docker
