PROFESSIONAL SUMMARY

Detail-oriented and results-driven Data Analyst with hands-on experience in Python, SQL, Tableau, and Power BI, and a strong foundation in statistical modeling, data cleaning, and dashboard development. Proven ability to turn complex datasets into actionable business insights, achieving measurable performance gains. Seeking full-time and internship opportunities to apply analytical skills in fast-paced, data-driven-enviorments.

PROFESSIONAL EXPERIENCE Data Analyst Intern

JAN 2023 – MAY 2023

Accenture, Hyderabad, India

- Engineered Python automation scripts for data cleaning and extraction, improving data processing speed by 25%
- Designed and implemented SQL-based ETL pipelines, increasing data accuracy and report generation by 30%.
- Developed interactive Tableau dashboards to visualize KPIs, enabling real-time business decisionmaking.
- Conducted data validation and cleansing procedures, reducing data quality issues by 20%.
- Optimized SQL queries and improved data pipeline performance, resulting in faster data retrieval and report delivery.

EDUCATION

University of Central Missouri, Warrensburg, MO

AUG 2023 - MAY 2025

Master of Science in Computer Science | CGPA: 3.5/4.0

Coursework: Advanced Database Systems, Data Science, AI, Cloud Computing

Sathyabama University, Chennai, India

JUN 2019 - MAY 2023

Bachelor of Technology in Computer Science | CGPA: 8.5/10.0

Coursework: Data Structures, Machine Learning, Computer Networks

SKILLS and CERTIFICATIONS

Languages: Python (Pandas, Numpy,Matplotlib,Seaborn), SQL, HTML/CSS

Visulization: Tableau, Power BI, Google Data Studio,Excel

Platforms: Google Analytic, AWS,Snowflake,VS Code,PyCharm,Git Hub

Certifications:

- AWS Certified Data Analytics
- Google Data Analytics Professional Certificate
- Microsoft PowerBI Certification

ACADEMIC PROJECTS

Retail Sales Insights & Forecasting

AUG 2023 – OCT 2023

- Conducted exploratory data analysis to uncover seasonal trends and sales patterns.
- Created a Tableau dashboard to visualize key sales KPIs and forecast trends.
- Applied time-series forecasting models (ARIMA, Prophet) to predict future sales performance.

Churn Customer Prediction

AUG 2023 – DEC 2023

- Performed EDA and feature engineering to identify churn predictors from customer behavior data.
- Built a Logistic Regression model achieving 85% accuracy in predicting customer churn.
- Designed a Tableau dashboard to visualize customer segmentation and churn risk levels.

Sales Forecasting Using Time Series Analysis

JAN 2024 – MAY 2024

- Cleaned and transformed large retail sales datasets to prepare for modeling.
- Applied ARIMA and Prophet models to predict monthly sales, identifying seasonality and trends.
- Delivered an interactive Tableau dashboard for dynamic visualization and decision support.
