PROFILE SUMMARY

Detail-oriented and analytical professional with 3+ years of experience optimizing workflows and streamlining business operations through automation. Proven track record in identifying process inefficiencies, designing scalable automation solutions, and supporting cross-functional teams with actionable reporting and data insights. Skilled in leveraging Microsoft Offices, Microsoft PowerPlatform, and SharePoint to create intuitive and efficient automated processes. Adept at translating complex business needs into user-friendly tools, developing SOPs, and delivering end-user training. Demonstrated success in working independently, managing multiple priorities, and contributing to remote teams. Passionate about using automation to improve healthcare operations and data-driven decision-making.
