Chennai India

Jul 2017 – Jun 2021

PROFESSIONAL SUMMARY

Experienced SharePoint Developer and Automation Consultant focusing on business process automation, data analysis, and software development. Skilled in designing and implementing SharePoint solutions, UiPath automation, and Microsoft 365 integrations to improve workflow efficiency. Proficient in developing custom workflows, dashboards, and automation frameworks to minimize manual tasks and streamline processes. Strong technical background in Python, SQL, Power Automate, and business intelligence tools such as Tableau and Power BI. Dedicated to using technology to improve efficiency, collaboration, and data-driven decision making.

EXPERIENCE

SharePoint Developer

Apps Associates, LLC

Hyderabad, India

Sept 2021 – Aug 2022

- Designed, and managed SharePoint sites, 7 workflows, and integrations, streamlining operations and improving team coordination, resulting in a reduction in manual processes.
- Developed over 10 forms, and dashboards using Power Automate, and Power Apps, enhancing usability and increasing process efficiency.
- Administered security settings, user access, and permissions for more than 300 users, ensuring compliance with organizational policies and reducing security-related incidents

Associate Consultant

Apps Associates, LLC

Hyderabad, India

Sept 2022 – Aug 2023

- Built and deployed 6 automation solutions using UiPath, optimizing business processes and reducing manual effort.
- Automated key tasks such as data entry, report generation, and invoice processing, increasing efficiency and reducing processing time.
- Collaborated with stakeholders to identify over 20 automation opportunities, developing reusable components that reduced implementation time.

PROJECTS

Hologic Intranet Portal Enhancement

- **Collaborated** in the optimization of Hologic's SharePoint-based intranet portal, improving internal communication and document management for employees. This led to a 40% improvement in internal user engagement and document retrieval efficiency.
- **Designed** and implemented workflows, and dashboards Power Automate to streamline business processes, reducing manual work.
- **Integrated** SharePoint with Microsoft Teams and OneDrive, enhancing cross-departmental collaboration and achieving a 50% increase in file-sharing efficiency.
- **Enhanced** search functionality and metadata management, reducing document retrieval time.

TimeSheet Automation: Ensuring Compliance with UiPath

- **Engineered** a UiPath workflow for tracking employee timesheet submissions, reducing manual follow-ups by 60% and improving overall compliance rates by 25%.
- **Programmed** a bot to extract and analyze timesheet data from Excel, automating the identification of employees who missed deadlines, and saving HR 10+ hours weekly.
- **Implemented** a scheduled unattended bot that sent automated email reminders to over 200 employees based on their respective time zones, improving timely submission rates by 35%.
- **Created** a manual trigger option for HR and managers to send instant follow-up emails when necessary, ensuring flexibility and reducing delays in the follow-up process by 70%.
- **Connected** UiPath with Outlook to personalize reminder emails, dynamically inserting employee names, deadlines, and missing entries, improving engagement by 20%.
- **Applied** error-handling mechanisms, ensuring smooth execution, and provided logs for prompt issue resolution.

SKILLS

- Languages & Scripting : Python, Html, Css
- Automation & Platforms : Power Apps, Power Automate, UI Path
- BI Tools : SQL, Tableau, PowerBI, Microsoft Excel
