

VARUN REDDY PEDDITI

DATA ENGINEER

+1 732-332-8484 | varunreddy.pedditi0@gmail.com | New Jersey, USA | [LinkedIn](#)

PROFESSIONAL SUMMARY:

- Data Engineer with 3 years of experience designing and deploying scalable, secure data pipelines using Python (PySpark, Pandas), SQL, Informatica, and Apache Spark on platforms like Databricks and Delta Lake, enabling analytics and ML workflows.
- Proficient in data platforms such as AWS (Glue, Redshift, S3, Athena), Azure Synapse, Microsoft Fabric, GCP BigQuery, and Snowflake; leveraging Docker, Kubernetes, Terraform, Jenkins, and GitHub Actions for production-ready solutions.
- Expert in building ETL/ELT pipelines using Apache Airflow, dbt, Azure Data Factory, Kafka, and AWS Step Functions with focus on data modeling, data quality, orchestration, and lineage.
- Skilled in batch and real-time processing using Spark Streaming, PySpark, Apache Flink, Kafka Streams, Apache Hudi, Hive, AWS Kinesis, and Fabric Real-Time Analytics for streaming ingestion and ML feature development.
- Strong knowledge in data governance and compliance, applying RBAC, encryption, and masking with tools like Great Expectations, Apache Atlas, Microsoft Purview, and Collibra to meet GDPR and HIPAA standards.

TECHNICAL SKILLS:

- **Programming & Frameworks:** Python, SQL, Scala, Bash, Java, PySpark, Pandas, NumPy, dbt, Apache Beam
- **Big Data & ETL:** Apache Spark, Hadoop, Hive, HDFS, Apache Kafka, SSIS, Informatica PowerCenter, DBT, Airflow
- **Cloud & Data Warehousing:** AWS (Redshift, S3, Glue, RDS, Lambda, EMR, Athena, Kinesis, AWS Pipeline), Snowflake
- **Data Modeling & BI:** Data Warehousing, Data Modeling, Tableau, Power BI, Excel
- **Packages & Tools:** NumPy, Pandas, Matplotlib, Seaborn, PySpark, Jenkins, GitHub, Git
- **Databases:** SQL Server, PostgreSQL, DynamoDB, MySQL

PROFESSIONAL EXPERIENCE:

UNITE US | Remote | Feb 2024 – Present

Data Engineer

- Designed and maintained AWS-based ETL pipelines using Lambda, S3, Glue, and Python, ensuring scalable and reliable ingestion of structured and semi-structured data.
- Automated data workflows with Airflow and AWS Step Functions, improving process efficiency and reducing manual intervention.
- Built real-time streaming pipelines using Amazon Kinesis Firehose for near real-time analytics and insights generation.
- Partnered with data architects and analysts to ensure data quality, governance, and performance optimization in a cloud-native environment.
- Migrated on-premise ETL processes to AWS, implementing cost-optimized, high-performance pipelines aligned with enterprise standards.

Vidlex Solutions | India | Mar 2021 – Nov 2021

Data Engineer

- Built and optimized AWS data workflows, leveraging Glue, Redshift, and Lambda for seamless data integration and transformation.
- Improved ETL efficiency by 50% through SQL query tuning and Python script optimization, reducing processing time for critical jobs.
- Implemented Git-based version control for collaborative development across distributed teams.
- Enhanced data reliability and lineage tracking using Airflow DAGs for orchestration and monitoring.

FINRAPHT | India | Feb 2020 – Sept 2020

Data Analyst (Intern)

- Built executive dashboards using Tableau to visualize market trends, customer behavior, and financial metrics, supporting leadership with timely strategic insights.
- Designed complex SQL queries for ad-hoc data extraction, KPI reporting, and performance analysis, enabling faster decision-making for key business operations.
- Cleaned and processed large datasets using Pandas and NumPy, improving reporting data accuracy by 20% and ensuring high-quality insights across analytics projects.
- Conducted detailed exploratory data analysis (EDA) to identify actionable business trends, supporting the development of targeted marketing and sales strategies.
- Collaborated closely with cross-functional teams to define critical business metrics, optimize data models, and create intuitive Tableau visualizations tailored to executive needs.

EDUCATION:

- **Masters in Computer Science** | Stevens Institute of Technology, Hoboken, New Jersey
- **Bachelor in Computer Science** | VNR Vignana Jyothi Institute of Engineering & Technology, Telangana, India
