

Professional Summary

Experienced DevOps Engineer with 3 years of expertise in automating and managing cloud infrastructures across AWS, Azure and GCP. Proficient in designing CI/CD pipelines using Azure DevOps and GitHub Actions. Skilled in Docker, Kubernetes, and Terraform for container orchestration and infrastructure as code. Focus on performance monitoring with Dynatrace. Certified Kubernetes Administration, with a proven ability to enhance deployment efficiency, optimize cloud costs, and collaborate effectively with cross-functional teams.

Core Skills

- Cloud Platforms: AWS (EC2, S3, Route53, VPC, CloudFormation), Azure (Virtual Machines, AKS, Virtual Network, Blob Storage, Azure DevOps, Azure Monitor, Azure Functions), GCP (Compute Engine, GKE, Cloud Storage, VPC, Cloud Build, Cloud Monitoring).
- CI/CD & DevOps Tools: Jenkins, Azure DevOps, GitHub Actions, Concourse, Terraform, CloudFormation, Docker, Kubernetes (AKS, GKE).
- Automation & Scripting: Python, Shell scripting, PowerShell.
- Monitoring & Logging: Prometheus, Grafana, Dynatrace, Elasticsearch, AWS CloudWatch, Azure App Insights.
- Security & Secrets Management: Hashi Corp Vault, SonarQube, AWS IAM.
- Networking & Load Balancing: Istio (Service Mesh), Nginx, Azure Application Gateway.
- Version Control & Repositories: Git, Bitbucket, JFrog.
- Collaboration Tools: Jira, Confluence, Slack, Microsoft Teams.
- Databases: MySQL, PostgreSQL, MongoDB.
- Other Skills: Terraform Scripting, Service Now, Docker.

Work Experience

T-Mobile

Texas, USA

DevOps Engineer (Contract)

Nov 2024 – Till Now

- Assisted in migrating on-premises applications to AWS by provisioning required infrastructure components (EC2 instances, RDS databases, EKS clusters, and CloudWatch monitoring) using Terraform.
- Contributed to the design and maintenance of reusable Terraform modules, ensuring standardized and consistent infrastructure provisioning across multiple projects.
- Utilized Docker to containerize applications, standardize environments across the SDLC and streamlining deployment through CI/CD pipelines. Managed Amazon Elastic Kubernetes Service (EKS) cluster from creation to maintenance, integrating monitoring and alerting with GCP Alerts and Dynatrace.
- Configured and instrumented Datadog One Agent to monitor production VMs and Kubernetes clusters, analyzing key performance metrics such as CPU, memory utilization, and request latency for proactive issue resolution.

Tech Mahindra

Hyderabad, INDIA

Cloud Support Engineer (Full Time)

Dec 2021 – Dec 2023

- Server & Application Management: Managed and patched application & web servers, performing updates, troubleshooting, and service restarts to ensure uninterrupted operations across PROD, PPE, and DR environments.
- Monitoring & Alerts: Monitored infrastructure and applications through Datadog, receiving real-time alerts via email and dashboards.
- Incident Management: Investigated and resolved P1–P5 incidents using ServiceNow, performing root cause analysis via logs, metrics, and traces to prevent recurrence.
- API & Security Operations: Supported Apigee API management, ensuring API performance, monitoring traffic, and applying security policies.
- Cloud Optimization (AWS): Analysed EC2 disk utilization in Power BI, worked with managers and AWS teams to optimize usage, and reduced costs on underutilized resources (EC2, VPC, IAM, S3).
- Deployment & Release Management: Collaborated with developers to build and deploy code to servers, performing version rollbacks when deployments failed to ensure stable releases.
- Change Management: Participated in ServiceNow change processes for approvals and documentation to maintain compliance and smooth deployments.

Certifications

- **Associate Cloud Engineer** Certification ID: 055f42b59d664cbbaa30b2cfa74d71c3 [Verify](#)
- **Microsoft Certified: Azure Fundamentals** Credential ID: 5A3E5C517C081EDF [Verify](#)

Education

- **Master of Science in Cloud Computing** - Campbellsville University (Kentucky, USA) **Jan 2024 – Aug 2025**
- **Bachelor of Technology in Computer Science & Engineering** – JNTUH (Hyderabad, INDIA) **July 2017- Aug 2021**
