SUMMARY

Data Analyst with 4+ years in healthcare and finance, skilled in transforming raw data into actionable insights. Proficient in SQL, Python, Power BI, Tableau, and QlikView for analysis and dashboards. Experienced in integrating PowerApps with SharePoint to streamline workflows. Strong foundation in Agile, data governance, and stakeholder engagement.

EXPERIENCE

Data Analyst

Nov 2024 – Present

Reckitt

Hillsborough, NJ

- Designed and deployed a PowerApps-based inventory system eliminating manual Excel entry; integrated barcode scanning to auto-fill SKU data from a SharePoint-linked master file, boosting audit accuracy and speed by 30%.
- Engineered Power Automate flows to clean and transform production data, delivering real-time updates to Power BI dashboards used for plant efficiency monitoring.
- Developed dynamic downtime reports with anomaly-based alerts, mitigating unplanned downtime by 25%.
- Initiated Excel-based tools using VBA, PowerPivot, and pivot tables to standardize production reporting, improve data accuracy, and minimize manual entry errors by 40%.
- Leveraged Microsoft Fabric to build ETL pipelines combining inventory, downtime, and financial datasets; enhanced reporting and generated predictive insights shared during leadership reviews.
- Constructed optimized SQL queries for financial reporting and KPI tracking, enabling stakeholders to monitor trends and conduct variance analysis across cost centers.

Data Analyst

May 2023 – Nov 2024

Johnson & Johnson

New Jersey, USA

- Identified recurring stock shortages, collaborated with supply chain and finance to define KPIs, and developed SQL-driven forecasting models to align inventory with demand.
- Streamlined manual workflows by engineering Python-based AWS Lambda ETL pipelines to handle data ingestion and cleansing, accelerating processing time by 40%.
- Collaborated with cross-functional teams to design interactive Tableau dashboards, streamlining executive decision-making through centralized and actionable supply metrics.
- Maintained and fine-tuned Azure Data Factory pipelines to ensure reliable delivery of real-time inventory and logistics data.

Data Analyst

Oct 2019 – Nov 2021

Deloitte

Mumbai, India

- Spearheaded a data analytics initiative to refine financial forecasting accuracy by identifying client revenue patterns, guiding strategic decision-making.
- Performed cost-benefit analysis to assess impact of predictive modeling, highlighting a potential 70% ROI through reduced financial defaults and more effective planning.
- Modernized SQL queries and indexing processes to enhance data retrieval speed, and simplified Excel-based KPI reporting through effective pivot table design.

SKILLS

BI & Reporting Tools: Power BI, Tableau, Excel, QlikView, M Query, Microsoft Fabric

Programming & Analytics: SQL, Python (Pandas, NumPy), R, Forecasting, A/B Testing, Data Wrangling

Cloud & Data Engineering: AWS (Redshift, S3, EC2, Lambda), Azure Data Factory, Snowflake

Automation & Integration: PowerApps, Power Automate, SharePoint, Power Query, ETL Pipelines

Soft Skills: Data Storytelling/Presentation, Stakeholder Communication, Critical Thinking, Cross-Functional Collaboration

EDUCATION

Stevens Institute of Technology

Hoboken, NJ

M.S. in Computer Science

Jan 2022 – Dec 2023

University of Mumbai

Mumbai, India

Bachelor of Engineering in Computer Engineering

Aug 2017 – Jun 2021
