EXPERIENCE

Business Analyst | Dell Technologies, USA

Aug 2024 - Present

- Spearheaded cross-functional teams in implementing Agile methodologies, resulting in a 30% reduction in project delivery time and 95% stakeholder satisfaction rate.
- Leveraged advanced SQL queries to extract and analyze complex datasets, uncovering actionable insights that drove a 25% increase in operational efficiency.
- Developed and executed comprehensive Go-to-Market (GTM) strategies for new product launches, coordinating between marketing, sales, and product management to ensure alignment and optimal market penetration.
- Created dynamic Tableau visualizations that transformed raw data into strategic assets, enabling data-driven decisions that boosted revenue by 15% year-over-year.
- Developed and maintained comprehensive reporting metrics and dashboards, providing stakeholders with real-time insights into project performance and key performance indicators (KPIs), further enhancing data visibility and informed decision-making.
- Authored comprehensive Functional Requirements Documents (FRD) and streamlined document management through optimized SharePoint use, accelerating development cycles and boosting team productivity.
- Constructed detailed financial models to forecast revenue, assess project feasibility, and analyze investment scenarios, providing critical financial insights that informed strategic planning and resource allocation.

Business Analyst | HCL Technologies, India

Feb 2018 - Jun 2022

- Applied Waterfall methodology to oversee phased project development, ensuring efficient delivery while maintaining a structured and systematic project management approach.
- Developed over 25 detailed Business Requirements Documents (BRD), Functional Requirements Documents (FRD), and System Requirement Specifications (SRS), ensuring 100% alignment with business goals and compliance standards.
- Constructed sophisticated financial models to evaluate potential revenue streams and project success, while generating dynamic reporting tools that provide stakeholders with timely performance insights, enhancing overall strategic visibility and informed decision-making.
- Utilized MS Excel for resource allocation and cost estimation, leading to significant reductions in project execution expenses.
- Designed and published 15+ Power BI dashboards that transformed complex data into actionable insights, leading to a 30% improvement in decision-making speed and accuracy.
- Conducted over 10 in-depth analyses, including cost/benefit, impact, GAP, risk, and SWOT, which led to a 30% increase in the accuracy of strategic decision-making.
- Managed project tracking, documentation, and collaboration through tools such as Jira, Microsoft Visio, and HP Quality Center, ensuring efficient project progress and communication.

EDUCATION

Master of Science in Computer Science | Grand Valley State University, Allendale, MI | Apr2024 | GPA: 3.471

Bachelor of Technology Civil Engineering | Jawaharlal Technological University, Andhra Pradesh, India | Aug2017 | GPA:7.8/10
