

# Venkata Chenna Mahi Satwik Addanki

## Data Engineer

Denver, CO | +1 (720) 437 9454 | [mahisatwik@jobitwork.com](mailto:mahisatwik@jobitwork.com)

### SUMMARY

Data Engineer with over 4 years of experience in developing and implementing robust data pipelines and end-to-end solutions using Python and SQL. Experienced in working with Big Data technologies such as Apache Spark, PySpark, Hadoop, Kafka, Hive, Sqoop, and Airflow to facilitate seamless data integration and efficient processing. Proficient in advanced data analysis and predictive modeling using libraries like NumPy, Pandas, Matplotlib, Seaborn, SciPy, and Scikit-Learn, driving actionable insights and innovative solutions for business challenges. Skilled in utilizing ETL tools such as SSIS, Apache NiFi, Talend, and Informatica to streamline data transformation and migration across diverse environments. Proficient in cloud platforms including AWS, Azure, GCP, and DataBricks, delivering scalable and efficient solutions for data storage, processing, and analytics workflows. Adept at creating insightful visualizations and reports with tools like Tableau, Power BI, and Advanced Excel, enabling data-driven decision-making. Demonstrates strong expertise in database management across MySQL, PostgreSQL, SQL Server, Oracle, and MongoDB, ensuring high performance and data integrity. Experienced in leveraging DevOps tools such as Docker, Kubernetes, and Jenkins to optimize CI/CD pipelines for streamlined deployment.

### SKILLS & CERTIFICATIONS

**Methodologies:** SDLC, Agile, Waterfall

**Programming Language:** Python, R, SQL, Scala

**IDE's:** PyCharm, Jupyter Notebook

**Big Data Ecosystem:** Hadoop, MapReduce, Hive, Apache Spark, Pig, Sqoop, Pyspark, Snowflake, HDFS

**ETL Tools:** SSIS, Apache NiFi, Apache Kafka, Talend, Apache Airflow, Informatica

**Cloud Technologies:** AWS, Azure, GCP, DataBricks

**Reporting Tools:** Tableau, Power BI, SSRS

**Packages:** NumPy, Pandas, Matplotlib, SciPy, Scikit-learn, Seaborn, TensorFlow

**Databases:** MySQL, SQL Server, PostgreSQL, Oracle

**Version Control Tools:** Git, GitHub, GitLab

**Other Skills:** Data Cleaning, Data Wrangling, Critical Thinking, Communication Skills, Presentation Skills, Problem-Solving, Data Management

**Operating Systems:** Windows, Linux, Mac

**Certifications:** [AWS Certified Cloud Practitioner](#)

### EXPERIENCE

**Druva Software, USA | Jun 2024 - Present**

**Data Engineer**

- Played an integral role in Agile project development, leveraging Jenkins-driven CI/CD pipelines to streamline deployments and integrate new features seamlessly across environments, improving the efficiency of development cycles.
- Engineered and optimized data processing frameworks with Apache Spark and Hadoop, enabling the transformation and handling of large-scale datasets, scaling capacity by over 10TB monthly to meet diverse analytical demands.
- Established interactive dashboards using Power BI, translating complex data into accessible insights to support decision-making across organizational teams.
- Designed scalable distributed storage systems using HDFS and DataBricks, effectively managing datasets exceeding 50TB while ensuring system reliability and enhanced performance for large-scale analytics projects.
- Conducted thorough exploratory data analysis utilizing Python, Seaborn, and Matplotlib, identifying critical patterns and insights that guided strategic initiatives and contributed to \$1M in additional revenue.
- Optimized database performance for systems like Oracle by implementing advanced indexing techniques and refining queries, improving data retrieval speeds by 40% and ensuring timely delivery of critical reports.

**Citius Tech, India | Oct 2019 - Nov 2022**

**Data Engineer**

- Engaged in all stages of the project lifecycle, applying structured SDLC methodologies like Waterfall to ensure systematic and effective project delivery.
- Considered a multi-tiered architecture for Hadoop ecosystems, enabling efficient processing of datasets over 10 TB, enhancing scalability by 40%, and reducing processing durations by 30%.
- Configured and streamlined data integration workflows using tools such as Apache NiFi, Kafka, and Talend, integrating data from over 100 disparate sources and boosting data flow efficiency by 25%.
- Industrialized complex SQL scripts for creating database objects like tables, triggers, sequences, views, and materialized views to meet advanced data querying and management needs.
- Built and automated robust ETL workflows using tools like Apache Kafka and NiFi, minimizing manual efforts by 40% and expediting seamless data transfers across platforms.
- Produced 50+ detailed dashboards and reports using Power BI, providing actionable insights to leadership teams and improving decision-making processes by 35%.
- Created impactful visualizations in SSRS to effectively convey data insights, enhancing reporting precision by 20% and facilitating better communication across teams.
- Deployed and managed cloud-based infrastructures in Microsoft Azure, optimizing storage and processing efficiency, cutting operational costs by 25%, and increasing system reliability by 30%.

### EDUCATION

**University of Denver, Denver, CO, USA**

**Jan 2023 - Nov 2024**

Master of Science in Information Technology

**Reva University, Bangalore, India**

**Aug 2016 - Jun 2020**

Bachelor of Science (Research) in Computer Science - Cloud Computing and Big Data
