

VENKATA SAI PAVAN BHOGHIREDDI

312-918-4322 | bvspavan01@gmail.com | Chicago, USA | [Linkedin](#)

EDUCATION

Roosevelt University

Master of Science in Computer Science

Dec 2024

Chicago, IL, USA

NIIT University

Bachelor of Technology in Computer Science and Engineering

TECHNICAL SKILLS

Languages: Python,, Java, JavaScript, TypeScript, C/C++, C#, Go, HTML/CSS, R, PHP, XML

Full Stack: React JS, Node JS, TypeORM, Angular JS, Android, Vue JS, Nest JS, Django, Flask, .NET, UI/UX, SpringBoot, Kafka, AWS Services, Micro Services, jQuery, Docker, Kubernetes, NGINX, UNIX/LINUX, Shell Scripting, Grafana

Databases: Anaconda, MySQL, MongoDB, SQL, PostgreSQL, NoSQL, DynamoDB, Firebase, BigQuery

ML, AI & Data Science: Machine Learning,NumPy, Pandas, Matplotlib, PySpark, Seaborn, Scikit-learn, spaCy, TensorFlow, PyTorch, OpenCV, NLP, NER, Clustering, CNN, RNN Feature Engineering, Regression, Decision Trees, Large Language Models (LLMs), Generative AI, Classification Algorithms Tableau, Gen AI

Miscellaneous: Frontend/Backend applications,CI/CD, Algorithms, Software Architecture, Agile/Scrum/Waterfall, REST/Restful APIs, Apache Airflow, Compliance, Cloud Platforms (AWS/GCP), Cloud computing, Git, Github/Gitlab, Terraform, NetBeans, IntelliJ, Postman, Jenkins, Jira, Splunk, Jupyter Notebook, Hadoop, MLFlow, Unit Testing, Integration Testing

PROFESSIONAL EXPERIENCE

Walmart Global Tech

Software Engineer (Contract)

Sunnyvale, CA, USA

April 2025 – Aug 2025

- Contributed to the development of core Marketplace modules by building responsive and accessible UI components using React, Redux, HTML, and CSS, resulting in a 35% improvement in seller onboarding experience.
- Collaborated closely with UX teams to refine user flows and implement accessibility best practices.
- Collaborated cross-functionally with design and backend teams to integrate RESTful APIs, improve state management, and ensure pixel-perfect UI, reducing bug rates by 25% and improving time-to-deployment.
- Contributed to Agile sprints with robust unit testing using Jest and React Testing Library, and integrated code into CI/CD pipelines, accelerating deployment cycles by 40%.

Xelpmoc Design and Tech

Software Engineer

Hyderabad, INDIA

Jan 2023 – Aug 2023

- Significant contributions made to two prominent projects, 'Mitaan' and 'FitnessGram,' with involvement in critical phases to ensure successful execution and alignment with client requirements. work performance.
- Leveraged expertise in front-end (React, Angular, JavaScript, HTML/CSS) and back-end (Node.js, TypeORM) technologies to develop scalable applications, enhancing performance by 25% and maintainability.
- Developed and integrated new features using RESTful APIs while adhering strictly to MVC architecture, ensuring modular, maintainable, and scalable code structures.
- Optimized relational database performance, including MySQL and PostgreSQL, by up to 50% through query optimization and effective indexing techniques, ensuring efficient data retrieval and system performance.
- Designed user-centric Figma prototypes, leading to a 25% improvement in usability scores, ensuring a seamless integration of design and functionality.
- Managed server and automated deployments using NGINX and shell scripts, reducing deployment time by 50%.
- Integrated monitoring scripts and alerts to enforce compliance on critical production workloads.
- Implemented load balancing strategies, enhancing system performance, and ensuring 99.9% uptime.
- Solved critical performance bottlenecks through advanced problem-solving, improving system throughput by 30%.
- Conducted thorough code reviews, mentoring interns and teammates to identify and resolve vulnerabilities, resulting in a 30% improvement in overall code quality and team productivity.

ACADEMIC PROJECTS

- Aspect Based Opinion Mining (NLP with Python):** Engineered an NLP pipeline to analyze 5,000+ customer reviews with 90% accuracy using POS tagging and sentiment analysis.
- Flight-Booking Application:** Built a MERN stack flight booking platform estimated to handle 4000+ users with additional features like seat selection, ticket cancellation and an AI chatbot.

CERTIFICATIONS

- Machine Learning and Data Science Bootcamp:** A project-based course that introduced modern skills of a data scientist.
- Android App Development:** Completed an android app development course offered by IBM through Foxmula.
