TECHNICAL SKILLS

Java, JavaScript, Spring Boot, Spring Cloud, Spring Data JPA, Hibernate, RESTful APIs, Kafka, Redis, Microservices Architecture, ReactJS, MySQL, Postgres, Oracle, PL/SQL, Jenkins, CI/CD Pipelines, Docker, AWS (EC2, S3, RDS), Pivotal Cloud Foundry, OpenShift, JUnit, Mockito, Jest, Selenium, Cucumber, TDD, SonarQube, NexusIQ, Git, GitHub, Jira, Agile, Postman, Swagger, Log4j2

WORK EXPERIENCE

Clark University | Research Assistant | Worcester, MA

December 2023 – May 2025

- Designed AI-powered recommendation system using OpenAI APIs, Python-FastAPI and Java-SpringBoot that increased user engagement by 60% through advanced NLP techniques and machine learning model optimization
- Architected scalable RESTful API infrastructure processing 1M+ data points daily using Java, reducing system latency by 40% and increasing throughput by 35% through advanced caching and load balancing techniques
- Built robust backend services with SpringBoot and FastAPI framework, optimizing complex database queries and reducing response times by 30% for high-volume research applications
- Integrated third-party APIs including OpenAI services, building wrapper services that handle authentication, rate limiting, and error handling for downstream applications

Capgemini | Full Stack Developer | Hyderabad, India

June 2021 – June 2023

- Spearheaded full-stack application development using Java Spring Boot microservices and ReactJS, maintaining 99.9% uptime for critical banking systems processing 1M+ transactions daily with robust error handling and failover mechanisms
- Transformed monolithic legacy systems into cloud-native microservices architecture, reducing deployment time by 40% and improving system scalability to handle 10K+ concurrent users
- Built dynamic ReactJS frontend applications with Redux state management, implementing lazy loading and code splitting that reduced bundle size by 35% and achieved 50% faster page load times
- Developed secure REST APIs with Spring Security, implementing JWT authentication, role-based access control, and data encryption for sensitive financial operations
- Enhanced backend performance using JPA and Hibernate optimizations, implementing database connection pooling and query optimization that reduced response times by 30%
- Led migration of cloud infrastructure from Pivotal Cloud Foundry (PCF) to OpenShift, improving scalability, deployment flexibility, and cost efficiency
- Implemented comprehensive testing strategy using JUnit, Mockito, Jest, and React Testing Library, achieving 60% test coverage and reducing production bugs by 30%

Capgemini | Full Stack Developer Intern | Hyderabad, India

February 2021 – May 2021

- Developed secure credit card application using Spring Boot backend and React.js frontend, achieving 100% security audit compliance through proper authentication and authorization implementation
- Led intern development team of 3 members, coordinating code reviews, task distribution, and technical mentoring for successful project delivery

PROJECTS

Online Assessment Platform | Java, Spring Boot, React.js, MySQL, Selenium, Cucumber

December 2024

- Built comprehensive online examination platform using Java Spring Boot backend and React.js frontend, enabling instructors to create and conduct assessments for students with automated grading and reporting capabilities

Workshop Application | Java, Spring Boot, React.js, MySQL, Selenium, Cucumber

December 2023

- Built scalable event management platform with role-based access control, real-time registration system, and automated notifications, supporting 500+ users with high-performance REST APIs achieving sub-2ms response times

EDUCATION

Master of Science, Computer Science | Clark University | GPA: 3.97

August 2023 – May 2025

Bachelor of Technology, ECE | Vel Tech University | GPA: 3.7

June 2017 – June 2021

AWARDS & ACHIEVEMENTS

- **Alpha Epsilon Lambda Honor Society**, Clark University Alpha Omicron Chapter for outstanding scholarship, and leadership
- **Pat on Back** award at Capgemini for exceptional team support and leadership
- **Winner**, IET Smart City Challenge, IET Chennai Local Network India

CERTIFICATIONS

Hewlett Packard Enterprise Software Engineering Job Simulation on Forage
