PROFILE

Software Engineer with 2+ years of experience delivering scalable full-stack systems across fintech and SaaS. Proficient in Python development and cloud platforms, with expertise in building production-ready applications that process high-volume data, improve system scalability and reliability, and enhance user experience at scale.

WORK EXPERIENCE

Software Engineer Intern, LendAPI Jun 2025 – Aug 2025 | Irvine, United States

- Built B2B loan application with React and Django REST, implementing 10+ real-time features that enhanced performance and user experience
- Developed secure JWT authentication flows, reducing unauthorized access by 40% and login issues by 25%
- Created AI-powered assistant using Python with fine-tuned models and Prometheus monitoring, automating 60% of queries while reducing latency by 40%
- Deployed and monitored applications on AWS, ensuring high availability and cost-effective resource utilization

Software Engineer, BussinessLab Aug 2021 – Jul 2023 | Mumbai, India

- Led development of real-time SaaS platform for sales tracking, scaling application to support 10,000+ concurrent users through Kafka-based streaming architecture that reduced system latency by 75%
- Automated infrastructure provisioning with Terraform and Jenkins, enabling horizontal scaling across multiple AWS instances and reducing deployment time by 30%
- Built RESTful APIs with PostgreSQL optimized for 50,000+ daily transactions, improving data retrieval efficiency by 40% under high user load
- Developed Python microservices for lead qualification automation, scaling to process thousands of user requests daily and improving conversion rates by 15%

Software Engineer Intern, Jiya Nutraherbs May 2021 – Jul 2021 | Valsad, India

- Developed backend services using Node.js and Express.js for order processing and inventory management across multiple client projects
- Deployed applications on AWS EC2 with Docker and NGINX, implementing monitoring with CloudWatch for operational visibility
- Collaborated in Agile development cycles to deliver features that met business requirements and performance standards

Web Developer Intern, Nibodh May 2019 – Oct 2019 | Mumbai, India

- Built a mobile-friendly UI with React, added 10+ features, integrated REST APIs, and deployed on Netlify, boosting engagement for 5000+ users
- Integrated AWS services (S3, Lambda), cutting data retrieval time by 30% and reducing administrative workload by 25%

SKILLS

Languages: C++, Python, Go, Java, JavaScript, TypeScript, C#, SQL, Express.js

Frontend & UI: Vue.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, React.js

Backend: FastAPI, Flask, Node.js, Django REST, Express.js, REST APIs

Data & Streaming: Apache Kafka, Real-time processing, ETL pipelines, Data workflows

DevOps & Cloud: AWS (EC2, S3, Lambda, DynamoDB), Docker, Kubernetes, Terraform, Jenkins

Certifications: AWS Certified Data Engineer – Associate, Databricks Generative AI Fundamentals

PROJECTS

SkySpark: Scalable Airline Performance Analysis, Tech Stack: Kubernetes, Apache Spark, Cassandra, Python, Matplotlib, Helm [↗](#)

- Engineered a cloud-native data pipeline with Kubernetes, Apache Spark, and Cassandra, leveraging SQL queries within Spark for airline performance analysis; improved data accessibility by 40%

GestureConnect, Tech Stack: React, WebRTC, PeerJS, MediaPipe, TensorFlow.js, JavaScript, CNN-LSTM Model [↗](#)

- Engineered a TensorFlow-based sign language detection solution, achieving an accuracy rate exceeding 95% for recognizing complex gestures; contributed to accessibility initiatives that enhanced communication for users with hearing impairments

EDUCATION

Master of Science in Computer Science, California State University Fullerton, CA Aug 2023 – May 2025

- Relevant Coursework:** Advanced Algorithms, Distributed Systems, Artificial Intelligence, Object Oriented programming

Bachelor of Engineering Information Technology, University of Mumbai, Mumbai Aug 2020 – May 2023

- Relevant Coursework:** Database Management Systems, Distributed Systems, Artificial Intelligence and Data Science
