

VIDYA LAKSHMI RAMANI

lakshmidvidyajob@gmail.com | 412-579-0251 | Buffalo, NY

EDUCATION

University at Buffalo, SUNY, Buffalo, NY

MPS in Data Science — Dec 2024

SRM University, Chennai, India

B.E. in Computer Science — Jul 2019

EXPERIENCE

Qualitative Data Analyst (Intern) | Chicago Education Advocacy Cooperative — Feb 2025 – Feb 2026

- Designing educational software and advocacy tools to support underserved students.
- Analyzing qualitative data to uncover barriers to access and inform policy recommendations.
- Building secure data platforms to ensure compliance with privacy standards and cybersecurity.
- Leading development of community engagement tools using open-source tech stacks.

Solution Engineer Intern | Tindoori Labs, Pittsburgh, PA — May 2024 – Aug 2024

- Conducted exploratory data analysis on business operations data using Python.
- Designed dynamic heatmaps and dashboards to visualize performance KPIs.
- Streamlined business reporting pipelines for quicker insights and decision-making.

Data Analyst | HCL Technologies, Chennai, India — Feb 2020 – Aug 2022

- Managed high-volume financial datasets for global derivatives reporting (7+ clients).
- Built multi-currency error detection tools and optimized data quality processes.
- Delivered clean data visualizations and documentation for executive stakeholders.

Software Engineer Trainee | Dossier Analytics, Chennai, India — Aug 2019 – Nov 2019

- Developed healthcare billing modules in Python and SQL for internal platforms.
- Executed data integrity checks and optimized SQL queries for better performance.

PROJECTS

Predictive Modeling of Crime in Buffalo — Oct 2023 – Dec 2023

- Engineered ML pipelines to predict crime incidents using Random Forest & KNN.
- Performed data wrangling, feature selection, and EDA on Buffalo crime datasets.
- Visualized spatial and temporal crime trends using Matplotlib and Seaborn.

Data-Driven Analysis of Housing Prices — Sep 2024 – Dec 2024

- Cleaned and processed 4600+ real estate records, resolving missing and outlier data.
- Trained multiple regression models (Gradient Boosting, RF, KNN) to predict prices.
- Identified influential property features and achieved top performance with GBM.

Crime Analytics for Chennai Region (Published in JETIR) — Jan 2019 – May 2019

- Used Python, Pandas, and NumPy to analyze regional crime statistics.
- Published peer-reviewed research on crime pattern prediction and visualization.
- Designed Jupyter notebooks for reproducible analysis and city-level insights.

SKILLS

- **Languages:** Python, R, JavaScript, C, MySQL, HTML/CSS
- **Tools:** Tableau, Power BI, AWS, Anaconda, VS Code
- **Core Skills:** Machine Learning, Data Visualization, Statistical Analysis, ETL, SDLC
