

Vikas Chandra Mallampati

Java Full Stack Developer

Bolingbrook, IL | 331-219-1799 | vikas.m@worksemails.com

SUMMARY

Java Full Stack Developer with 4+ years of hands-on experience in designing, developing, and optimizing scalable, high-performance web applications and enterprise-level software. Proficient in both backend (Java, Spring, Hibernate) and frontend technologies (ReactJS, Angular), with deep expertise in microservices, cloud architectures (AWS, GCP), and DevOps practices. Proven track record of leading cross-functional teams to deliver robust, reliable applications while implementing CI/CD pipelines, containerization (Docker, Kubernetes), and real-time data processing (Kafka, RabbitMQ). Known for a strategic approach to aligning technology solutions with business objectives, enhancing efficiency, security, and overall user experience. Skilled in Agile methodologies, with a strong commitment to clean code, test-driven development, and mentoring junior developers to foster a collaborative team environment.

SKILLS

Methodology: SDLC, Waterfall, Agile

Programming Languages: Java, C++, PL/SQL

Frameworks: Spring MVC, Spring, Hibernate, Spring Boot, Spring Security, Spring Data JPA, Node.js, React.js, Angular JS

J2EE Technologies: Servlets, JSP, JDBC, JUnit, JAXB, JMS, JSTL, Multi-threading, EJB, JavaBeans, JSF, JSTL, Multithreading, and Collections

IDEs: IntelliJ IDEA, Eclipse, Visual Studio Code

Web Technologies: HTML5, CSS3, JavaScript, RESTful APIs, GraphQL, TypeScript, jQuery, Ajax, XML, JSON, Bootstrap

DevOps: Docker, Kubernetes, Jenkins, Bamboo, Ansible

Cloud Platforms: AWS, Azure, Google Cloud Platform (GCP)

Databases: Oracle, MySQL, SQL Server, DB2, PostgreSQL, MongoDB, Cassandra, Cosmos DB, DynamoDB

Version Control & Other Tools: Git, SVN, Gitlab, Bit Bucket, Maven, Gradle, Ant

Testing and Logging Tools: Junit, Mockito, Selenium, TestNG, Power Mock, JMeter, Jest, Enzyme, Cucumber, Log4J

Soft Skills: Effective verbal and written communication, Problem-solving, and Troubleshooting skills

Operating Systems: Windows, Linux, Unix

EXPERIENCE

Berkshire Hathaway, USA | Java Full Stack Developer

January 2023 - Current

- Adopted Agile Methodologies to manage and drive the full software development life cycle, ensuring iterative, collaborative progress through sprints, stand-ups, and retrospectives to deliver high-quality features on schedule.
- Implemented Front-End Interfaces using React.js, leveraging reusable components from NPM and integrating Redux for state management, resulting in a dynamic, responsive, and efficient user experience.
- Enhanced User Engagement by 20% by building a well-optimized Single Page Application (SPA) with AngularJS, JavaScript, HTML5, and CSS3, providing a seamless and responsive user experience.
- Reduced Operational Costs by 15% by containerizing microservices with Docker and deploying on AWS, enabling efficient resource utilization and lowering infrastructure expenses.
- Automated CI/CD Pipeline for microservices by integrating with VSTS, streamlining the build and release processes and ensuring continuous delivery and faster time-to-market for new features.
- Configured AWS Elastic Load Balancers and Auto-Scaling Groups to manage traffic distribution and scalability, enabling a fault-tolerant, resilient, and highly available system.

Maruti Techlabs, India | Java Full Stack Developer

January 2019 - July 2021

- Developed core business logic and data management components for a scalable, high-performance J2EE-based web system.
- Implemented techniques that improved query response times by 25% and minimized database load through effective session state management.
- Built and Enhanced Full-Stack Applications using Spring MVC, Angular, JSP, JSTL, and AJAX for the front end; developed the business layer with Spring and managed persistence with Hibernate, creating a seamless and cohesive user experience.
- Deployed and managed microservices on Pivotal Cloud Foundry (PCF) with manifest files, ensuring smooth scaling and deployment.
- Specialized in React.js for developing interactive, responsive single-page applications (SPA).
- Optimized cloud deployments by streamlining OpenShift installations on AWS for greater flexibility and scalability.
- Utilized Kubernetes to establish a CI/CD environment, enabling continuous integration, testing, and agile releases.
- Implemented Backend Functionality with EJBs, enabling efficient, server-side business processing and improved application reliability.
- Enhanced UI with Bootstrap and Node.js, designing visually appealing and responsive interfaces that improve user engagement and accessibility.
- Developed front-end interfaces with JSP, JSF, HTML5, JSTL, CSS, JavaScript, jQuery, Backbone.js, and custom tags for a user-friendly experience.
- Designed and developed RESTful and SOAP web services for efficient data exchange between distributed systems.
- Architected NoSQL solutions for unstructured data, achieving 40% faster access for high-traffic applications and supporting real-time analytics.
- Implemented Maven and Jenkins for automated builds, reducing manual errors by 30% and deployment time by 50%.

EDUCATION

Master in Computer Science | University of North Texas, Denton, Texas

Bachelor in Computer Science | KL University, Vijayawada, Andhra Pradesh

CERTIFICATIONS

AWS Cloud Practitioner.

AWS Developer Associate.
