TX, USA | (469) 283-8738 | Vinaythamatam1613@gmail.com | LinkedIn

SUMMARY

Data Analyst with around **4 years** of expertise in leveraging **Python** libraries like **Pandas**, **NumPy**, and **Matplotlib** for **data manipulation, analysis, and visualization**, and adept in **SQL** for querying and optimizing relational databases like **MySQL** and **PostgreSQL**. Demonstrated proficiency in working with **NoSQL** databases such as **MongoDB** and **Cassandra**, handling unstructured data, and optimizing data solutions. Skilled in applying statistical techniques and **machine learning** algorithms, including **regression**, **classification**, and **clustering**, for **predictive modeling**. Experienced in designing and executing **A/B tests** for data-driven decision-making, and proficient in **AWS** services like **EC2**, **S3**, **Lambda**, and **RedShift** for cloud computing and data infrastructure enhancement. A collaborative team player with hands-on experience in **Agile** and **Waterfall** methodologies, capable of managing cross-functional teams and delivering high-quality analytical solutions.

TECHNICAL SKILLS

Python, SQL, R, MySQL, Oracle, MS SQL Server, MongoDB, NumPy, Pandas, Matplotlib, AWS EC2, S3, Lambda, RDS, RedShift, EKS, EMR, Cloud Watch), Tableau, Power BI, MS Excel, Agile, Waterfall, Git, GitHub, Data Mining, Data Cleansing, Statistical Analysis, Data Visualization, Text Mining, A/B Testing, Data Wrangling, Data Warehousing, Critical Thinking, Problem-solving, Communication.

PROFESSIONAL EXPERIENCE

MOURI TECH LLC

Data Analyst

USA

Jan 2023 – Mar 2024

- Boosted data analysis and visualization efficiency by 30% through Python, NumPy, Matplotlib, and SciPy, enhancing the identification of trends and patterns for strategic decision-making.
- Developed interactive Power BI dashboards, increasing data accessibility and stakeholder engagement by 25%, leading to more informed business decisions.
- Managed and optimized MySQL databases, improving data integrity and performance by 20%, contributing to more efficient database operations.
- Streamlined data warehousing and governance processes, increasing storage efficiency by 35% and ensuring high-quality, compliant data for analysis.
- Deployed and monitored scalable data processing pipelines on AWS Elastic Map Reduce (EMR) clusters using AWS CloudWatch, ensuring reliable and efficient data workflows.

Wattn Engineering

Data Analyst

India

Jul 2020 – Aug 2022

- Enhanced data reliability by 20% through the integration of sales data from Oracle relational databases and NoSQL databases, ensuring consistency and integrity across platforms.
- Reduced query time by 40% for 3 million records using AWS RDS and AWS RedShift, improving data storage and management efficiency for high-performance querying.
- Improved sales efficiency by 25% by conducting in-depth data analysis and mining with SQL and Python, identifying trends, patterns, and actionable insights.
- Developed a data warehousing solution that enhanced reporting speed by 35% and created interactive Power BI dashboards, increasing stakeholder engagement by 20% through effective communication of key sales metrics.

Beyond Key Solutions

Data Analyst Intern

India

Jan 2020 – Jun 2020

- Enhanced decision-making accuracy by 15% through developing and optimizing data models using Python and R, generating actionable insights that supported strategic business decisions.
- Improved data quality by 30% and processing efficiency by 25% by leveraging NumPy and Pandas for data cleaning and wrangling, leading to more reliable data analysis.
- Increased data accessibility by 35% and stakeholder engagement by 25% through designing and maintaining interactive Tableau dashboards, facilitating real-time insights and data-driven decisions.

PROJECT EXPERIENCE

Predictive Modeling for Credit Risk Assessment (Applied Machine Learning)

- Developed a machine learning-based credit risk assessment model achieving over 90% accuracy in predicting credit defaults or delinquencies by analyzing personal attributes and credit behaviors.
- Aimed to empower financial institutions to make informed lending decisions, reducing 50% potential losses, and enhancing portfolio performance.

PROJECT EXPERIENCE

The University of Texas

Master of Science in Business Analytics

TX, USA

PES University

Bachelor of Science in Computer Science & Engineering

Bangalore, India
