EXPERIENCE

Student Researcher, University of Texas at San Antonio

Aug 2025 - Present

Working on a research project: LLM-based multi-agent framework for troubleshooting Kubernetes clusters in distributed systems

Software Engineer Intern, Microsoft

May 2025 - Aug 2025

Microsoft Teams Mobile Development Team Responsibilities: Enhancing the Microsoft Teams mobile application with a focus on performance, usability, and new feature development. Primary technologies include Java and Kotlin for Android development.

Mobile Application developer, University of Texas at San Antonio

Sep 2024 - Dec 2024

- Supporting mobile app development for **messaging applications** and **healthcare-related apps**, including development, maintenance, and **research and development** of new features for UT health.
- Contributing to the **cloud backend support** for mobile applications as needed, ensuring efficient backend operations.
- Developing iOS applications using **Swift** for a healthcare project aimed at **supporting breast cancer patients** and **building a smoking cessation app**.
- Skills: Swift, Flutter, Android Studio, Java

Software Engineer, Appian Corporation

Aug 2022 - Jul 2024

- Remediated vulnerabilities in over 100 plugins, reducing CVEs from 100 per month to 23 per month (9798% reduction).
- Led the successful migration from Java 8 to Java 17, enhancing system performance and ensuring long-term compatibility. Removed deprecated APIs, modernizing the codebase and improving overall maintainability.
- Developed new plugins to extend platform functionality and address business needs.
- Mentored interns and supported new hires as part of the First Friend onboarding initiative.
- Technologies:** Java, React.js, Python, SQL, AWS, Jenkins, JUnit, Sail, JavaScript, Git, Shell

Technical Intern, AT&T

Jan 2022 - Jul 2022

- Developed an MVC application using Spring Boot (backend) and React.js (frontend), improving system efficiency.
- Implemented APIs and business logic for processing MSR order details, enhancing data handling and processing speed.
- Technologies: Java, Spring Boot, Hibernate, React.js, HTML, CSS, JavaScript, MySQL.

Technology Intern, MyshubhLife

Oct 2021 - Dec 2021

- Contributed to UI design for a financial application with over 1 million downloads on Google Playstore.
- Technologies: React.js, Redux, TypeScript, Python, AWS.

Data Science Intern, LocalHost Technologies

Sep 2021 - Oct 2021

- Created a Home Loan Prediction System, preprocessing data and training models using Logistic Regression, Naive Bayes, and Random Forest.
- Enhanced prediction accuracy through model selection and tuning.

Web Developer Intern, Epicenter News

Jun 2021 - Sep 2021

- Assisted in building Epicenter News, an opinion-based news platform, handling frontend, backend, and database integration.
- Technologies: Node.js, React.js, MongoDB, Python.

JavaScript Developer Intern, Durga India

Apr 2021 - May 2021

- Supported backend development for a women's safety app, integrating cloud functionalities and resolving key issues.
- Technologies: JavaScript, Cloud Integration.

EDUCATION

Masters Degree, Computer Science

Aug 2024 - Dec 2025

University of Texas at San Antonio

SKILLS

Programming Languages:: Python, SQL, JavaScript, Java, C++, Bash, Ruby on Rails, TypeScript, PHP

Data Analysis & Machine Learning: Data Analysis, Data Visualization, A/B Testing, Hypothesis Testing, Regression, Segmentation, Experimentation, Pandas, NumPy, Matplotlib, Seaborn, scikit-learn, Apache Spark, PySpark, dbt, Airflow, Tableau, Power BI

Testing Tools:: Testing Tools: JUnit, Mockito, Pytest, RSpec, Jest

Mobile Development:: Java, Android Studio, Flutter, XML, Swift

Software Engineering & Practices:: Object-Oriented Programming (OOP), REST APIs, Web Development (HTML, CSS, JavaScript, React.js, Node.js), SDLC, Git, GitHub, CI/CD Pipelines, Docker, Kubernetes (basics), Linux/Unix Systems

Tools & Platforms:: AWS (S3, Lambda, Redshift), GCP, Azure, MySQL, PostgreSQL, MongoDB, Jupyter, VS Code, Postman, Figma, Prometheus, CDN, Terraform, Containerization, Go, Rust, Elasticsearch, Redis, Snowflake, Agile, Apache Druid, Apache Kafka, Elastic Search, Hadoop, Splunk, HBase, Hive, NoSQL, Oracle, Salesforce, Open Source, Perl, Scala, Laravel
