

Vineetha Kambala

BI and Data Analyst | saivineetha.kambala@gmail.com | +1 (929) 266-8019 | linkedin.com/in/vineek

SUMMARY

BI & Data Analyst with around 5 years of experience across finance and e-commerce, specializing in KPI reporting, fraud analytics, forecasting, and dashboard development. Skilled in SQL, Python, data cleaning, transformation, EDA, and building automated ETL pipelines. Strong ability to translate complex datasets into clear business insights, improve data quality, and support stakeholders through accurate reporting and visualization.

SKILLS

- **Data Analysis:** Data Cleaning, Data Transformation, Data Wrangling, Exploratory Data Analysis (EDA), Data Validation, Data Quality, Trend Analysis, Statistical Analysis, Performance Metrics, Root Cause Analysis
- **Programming:** SQL, Python (Pandas, NumPy, Matplotlib, Seaborn), R
- **Visualization & BI:** Power BI, Tableau, Looker, Dashboard Development, KPI Reporting, Reporting & Insights
- **ETL / Data Pipelines:** Azure Data Factory, Airflow, dbt, Informatica, Talend, AWS Glue, SSIS, Alteryx
- **Data Warehousing:** BigQuery, Snowflake, Azure Synapse, AWS Redshift
- **Testing & Experimentation:** A/B Testing, Time-Series Forecasting
- **Tools & Workflow:** Excel (Advanced), JIRA, SharePoint, Visio, Git/GitHub, SDLC, Agile/Scrum, Requirements Gathering, Stakeholder Communication, Automation

EXPERIENCE

American Express

Jul 2023 – Present

Data Analyst

- Analyzed large-scale credit-card transaction data using SQL and Python for fraud monitoring, improving detection accuracy and reducing false positives by 15%.
- Performed data cleaning, transformation, EDA, and validation to maintain high data-quality standards.
- Automated ETL/data pipelines using Azure Data Factory, Airflow, and dbt to improve data refresh efficiency and reduce latency.
- Built Power BI dashboards showing fraud KPIs, trends, alerts, and operational performance for business stakeholders.
- Developed and documented reporting workflows (BRD/FRD) to align outputs with risk and compliance teams.
- Identified performance metrics and conducted root-cause analysis for data discrepancies and unusual transaction patterns.

Netmeds

Jan 2020 – Dec 2021

Business Intelligence Analyst

- Analyzed customer, campaign, and sales data using SQL and Python to support marketing, operations, and leadership initiatives.
- Built Tableau dashboards for executives, improving visibility into KPIs and reducing reporting turnaround time.
- Created automated reporting workflows using SQL, Python, and Excel, improving pipeline efficiency and accuracy.
- Conducted A/B testing and conversion analysis to optimize promotions, increasing conversion rate by 9%.
- Improved demand planning by developing ARIMA-based forecasting models and time-series insights.
- Collaborated with stakeholders to gather requirements and convert them into BI dashboards and data models.

EDUCATION

- Master's of Science in Computer Science, New Jersey Institute of Technology, Newark, NJ, (GPA: 3.81)

CERTIFICATIONS

- AWS Machine Learning – Specialty
- IBM Enterprise-Grade AI
- Microsoft Power BI Data Analyst Associate

PROJECTS

- **Customer Churn Dashboard (Power BI, SQL):** Built a dashboard tracking churn by segment and region, improving retention insight accuracy by 25%.
- **Sales Forecasting (Python, SQL):** Developed an ARIMA model to predict monthly sales, improving demand-planning accuracy by 18%.
- **Stock Price Prediction (Python, RNN):** Forecasted stock price trends with approximately 85% accuracy.
- **Handwritten Digit Recognition (Python, CNN):** Achieved 98% accuracy on the MNIST dataset using deep learning.
- **Facial Emotion Recognition (Python, CNN):** Trained an emotion-recognition model with 95% classification accuracy.
