EDUCATION

Cleveland State University - Master of Computer Science

Aug 2022 – May 2024

Relevant Courses – Advance operating system, Data Mining, Enterprise Datawarehouse and system, Analysis of Algorithm, Computer Architecture, Graduate Seminar.

SKILLS

- **Programming Languages:** Python, C, C++, Java, Go, R, CUDA. TypeScript
 - **Development Tools:** Git, Visual Studio, Eclipse, Postman, Github, Docker, Flask
 - **Databases:** SQL, MySQL, PostgreSQL, Excel
 - **Data Science:** Data manipulation and visualization using Pandas, NumPy, Matplotlib, Seaborn and PowerBI or Tableau.
 - **Machine Learning:** PyTorch, algorithm application, data preprocessing and validation.
-

WORK EXPERIENCE

Teaching Assistant

Aug 2023 – Dec 2023

Cleveland State University – Cleveland, OH

- Coordinated and facilitated instructional activities for Programming Languages and Software Engineering courses, significantly enhancing student engagement and comprehension.
- Led weekly discussion sessions that demystified complex topics, boosting academic performance and student satisfaction. (C and Java)
- Conducted thorough evaluations of assignments and exams, providing detailed feedback that improved student grades and understanding by an average of certain percentage.

Software Developer

Aug 2021 – July 2022

Knowx Innovations (p) Ltd – Bangalore, India

- Focused on the backend development of scalable software applications, utilizing Python and API integrations to ensure robust architecture and seamless system integration.
- Worked closely with Quality Assurance teams to identify and resolve software bugs, leading to a 20% improvement in application reliability and performance.
- Actively participated in ongoing professional development to master the latest industry practices, enhancing team capabilities and project outcomes.
- Implemented and optimized database operations, ensuring efficient data storage and retrieval, which improved overall system performance.

Software Developer Intern

March 2021 – Aug 2021

Knowx Innovations (p) Ltd – Bangalore, India

- Utilized Python and libraries like NumPy and Pandas for robust data analysis, contributing to the development and enhancement of machine learning models for facial recognition. Assisted in various software development phases, focusing on coding and maintenance to meet project deliverables.
 - Engaged in testing and debugging, using tools to effectively identify and resolve issues, thereby ensuring optimal application performance and reliability.
 - Demonstrated strong collaborative skills, working closely with senior developers and quality assurance teams. Rapidly adapted to new technologies and methodologies, enhancing technical skills and understanding through hands-on experience and mentorship.
-

Academic Projects

Sentiment Analysis on Amazon Software Products - **Cleveland State University, Ohio, USA (2023)**

BI Intelligence on Adventure Works Dataset – **Cleveland State University, Ohio, USA (2023)**

Certifications

Accenture North America Data Analytics and Visualization Job Simulation on Forage – **Cleveland, Ohio, USA (2023)**

AWS certified Solution Architect – **Udemy (ongoing)**
