

Vishnu Kumar Kshatriya Full Stack Developer

vishnu@mymailsbox.net | (940) 594-4662 | USA | [LinkedIn](#)

Summary

Full Stack Developer with 5+ years of experience delivering secure, real-time, and scalable web applications in FinTech and enterprise environments. Proficient in React (Hooks, Redux Toolkit), Angular (NgRx), and Spring Boot (JWT, OAuth2, WebSocket). Skilled in building microservices, multi-tenant systems, and fraud detection modules. Experienced in AWS and Azure cloud deployments, CI/CD (CodePipeline, Azure DevOps), and containerized architectures. Strong in performance tuning, database optimization (AWS RDS, Azure SQL), and test-driven development (JUnit, Mockito, Jasmine).

Technical Skills

- Frontend:** React (Hooks, Redux Toolkit, React Query, WebSockets, Context API, A/B Testing), Angular (NgRx, Reusable Components, Reactive Forms, Dashboards), TypeScript, JavaScript (ES6+), HTML5, CSS3, JavaFX, Vaadin
- Backend:** Spring Boot (Microservices, RESTful APIs, WebSocket Server, OAuth2, JWT, Role-Based Access Control, Audit Logging, Circuit Breakers, Multi-tenant Architecture), Node.js (Basic), GraphQL (Basic)
- Databases:** AWS RDS, Azure SQL, MySQL, PostgreSQL, MongoDB, Redis | Skills: Data Modeling, Indexing, Query Optimization, Partitioning, Encryption
- Cloud & DevOps:** AWS (Elastic Beanstalk, EC2, S3, RDS, Lambda, Kubernetes, CloudWatch, CodePipeline, CodeBuild, IAM, Multi-region Deployment, Auto-scaling, Disaster Recovery), Azure DevOps (CI/CD Pipelines, Monitoring, Scaling), Docker, Git, GitHub Actions
- Messaging & Streaming:** Apache Kafka, RabbitMQ (Basic)
- Testing:** JUnit, Mockito, Jasmine, Karma, Postman, Swagger, Selenium (Basic)
- Tools & Methodologies:** Agile (Scrum), Jira, Confluence, REST API Documentation, Requirement Gathering, Cross-functional Collaboration, Real-time Systems, Secure Payment Processing, Fraud Detection Hooks, TDD, CI/CD, Version Control (Git)

Professional Experience

Full Stack Developer, Venmo

10/2024 – Present | Remote, USA

- Delivered secure, real-time features for **FinTech** and **ERP platforms** using **React**, **Angular (NgRx)**, and **Spring Boot microservices**, improving user engagement by 40% and feature delivery by 30%.
- Built **RESTful APIs** and real-time systems using **WebSockets**, **JWT**, **OAuth2**, and **role-based access control**, achieving <200ms latency and strengthening data security.
- Designed and optimized **AWS RDS**, **Azure SQL**, and **MySQL** databases with indexing, encryption, and partitioning, improving performance by up to 45%.
- Automated CI/CD pipelines via **AWS CodePipeline** and **Azure DevOps**, boosting test coverage to 85% and reducing deployment cycles by 50%.
- Managed **cloud-native deployments** on **AWS (Elastic Beanstalk, Kubernetes)** and **Azure**, ensuring 99.9%+ uptime with auto-scaling, failover, and disaster recovery.

Full Stack Developer, Novisync

01/2020 – 08/2023 | Andhra Pradesh, India

- Built and scaled an ERP platform for SMEs using **Angular (NgRx, Reactive Forms)** and **Spring Boot microservices**, improving UI responsiveness by 25% and delivery by 30%.
- Developed secure, real-time **RESTful APIs** with **WebSockets**, **multi-tenant architecture**, and **role-based access control**, reducing latency by 35%.
- Optimized **Azure SQL** with indexing, partitioning, and query tuning, supporting scalable, high-throughput data operations.
- Ensured end-to-end security with **JWT**, **OAuth2**, **API Gateway**, and data encryption, achieving full compliance and zero breaches.
- Built **CI/CD pipelines** using **Azure DevOps** and automated testing with **JUnit**, **Jasmine**, and **Karma**, raising test coverage to 80% and halving deployment times.
- Managed **Azure Cloud deployments** with auto-scaling, monitoring, and failover, maintaining **99.9% uptime** across environments.
- Drove Agile collaboration with product owners, QA, and stakeholders to align technical solutions with SME client needs.

Associate Full Stack Developer, Novisync

01/2019 – 12/2019 | Andhra Pradesh, India

- Contributed to a scalable **customer support ticketing platform** using **JavaFX**, **Vaadin**, and **Spring Boot**, supporting feature delivery and backend integration with **MySQL**.
- Built **REST APIs** for ticket lifecycle management and implemented **email/SMS notifications**, improving system reliability and user communication.
- Supported **UI/UX optimization** through **A/B testing** and analytics, ensuring seamless deployment and admin dashboard performance in collaboration with cross-functional teams.

Education

Master of Science in Computer Science

University of North Texas

08/2023 – 05/2025

Denton, Texas, USA

Bachelor of Technology in Computer Science

Sir C.R. Reddy College of Engineering

06/2014 – 05/2018

Andhra Pradesh, India
