

# VISHNU VARDHAN VISRAM

(847)-650-4411 | [visramvishnuvardhan@gmail.com](mailto:visramvishnuvardhan@gmail.com) | [LinkedIn](#)

## SUMMARY

Seeking an entry-level position in data analytics to leverage my academic background and hands-on experience in data manipulation, statistical analysis, and data visualization. Eager to apply my skills in a dynamic and collaborative environment, contributing to the extraction of actionable insights and supporting data-driven decision-making processes.

## EDUCATION

---

### Master's in data Analytics

University of Illinois at Springfield, IL.

Big Data Analytics, Data Analytics capstone, Introduction to Quantum computing, Intro to machine learning, Introduction to Database System.

December 2023

GPA 3.9/4

### Bachelor of Technology in Computer Science

Vignana Bharathi institute of technology, Hyderabad, India.

2017 to 2021

CGPA 6.64/10

## TECHNICAL SKILLS

---

**Programming:** Java, SQL, Python, Apache Hadoop, Apache spark, R.

**Apache Hadoop:** Apache Hadoop is an open-source framework for distributed storage and processing of large-scale data sets.

**Apache Spark:** It is an open-source, fast, and unified analytics engine for large-scale data processing, providing in-memory computation and support for diverse workload.

**Skills:** Critical thinking, Data Management, Problem Solving, Adaptable learner, Data analysis.

## ACADEMIC PROJECTS

---

### Customer Segmentation [Python, Machine learning, SQL]

**Used Libraries:** NumPy, Pandas, Matplotlib.

- Customer Segmentation is the process of dividing customers into groups based on common characteristics so companies can market to each cluster effectively and appropriately.
- In this project my team and I implemented unsupervised machine learning algorithms: K-means. In collaboration with a delivery company.
- Our goal is to segment their customers given the customer's various behaviours and features, for the company to be able to market for each segment in a manner that is more fitting to each individual customer.
