EXPERIENCE

Data Analytics Virtual Internship

Amazon Web Services (AWS)

May 2023 - July 2023

- Applied data analytics techniques and leveraged AWS services, such as S3 and EC2, to extract actionable insights from large datasets, contributing to enhanced decision-making during a dynamic internship in data analytics.

AI-ML Virtual Internship

Amazon Web Services (AWS)

December 2022 - February 2023

- Interned at AWS, applying AI and ML techniques to develop scalable solutions, optimizing cloud infrastructure for high-performance computing, and leveraging AWS services for data processing and model training, contributing to the advancement of AI technologies and cloud-based machine learning.

Cloud computing Virtual Internship

Amazon Web Services (AWS)

July 2022 - September 2022

- Gained proficiency in key AWS services such as EC2, S3.
- Developed an understanding of cloud architecture.

PROJECT

STUDY GROUP MATCHER

- Developed a Flutter-based mobile app to match students into study groups based on shared interests and academic goals.
- Engineered features including user authentication, profile management, and dynamic friend list viewing.
- Crafted a clean, responsive UI using Material Design and orchestrated navigation across multiple screens.

UNRAVELLING WATER BODIES FROM SPACE: UNET AND VGG16

- Developed a deep learning model using U-Net and VGG16 for accurate segmentation of water bodies from satellite images.
- Achieved high precision in image analysis, showcasing expertise in CNNs and satellite imagery processing.

HOTEL MANAGEMENT SYSTEM

- Spearheaded the development of a user-friendly hotel management system, integrating features for reservations, billing, and guest satisfaction tracking, resulting in improved operational efficiency and customer experience.

FRAUD INSTAGRAM PROFILE IDENTIFICATION USING MACHINE LEARNING

- Spearheaded the development and implementation of an advanced machine learning-based artificial neural network model.
- Leveraged user behavior patterns to detect and eliminate fake Instagram profiles.

EDUCATION

Masters of Science in Computer Science

Wright State University · Dayton, OH · 2026 · 3.8

Bachelor of Technology in Information Technology

Sreenidhi Institute of Science and Technology · Telangana, INDIA · 2024 · 3.21

COURSEWORK

Data Structures & Algorithms

Distributed Computing

Machine Learning

Database Management

SKILLS

Programming Languages: Java, Python, JavaScript, C Programming

Web Development Frameworks: React

Database Management Systems: MySQL

Cloud Computing Platforms: AWS
