PROFESSIONAL SUMMARY

Analytical operations professional with 3 years of experience optimizing workflows, managing enterprise data systems, and enabling information flow across business functions. Skilled in Smartsheet, Salesforce, and Airtable. Proven ability to maintain data integrity, deliver executive reports, and streamline collaboration between teams.

PROFESSIONAL EXPERIENCE

Coldwell Banker Richard Ellis Group – CBRE, Incorporated

Master Data Analyst

Apr 2025 – Jul 2025

- Supported governance of global master data and ensured information accuracy across supply chain systems.
- Managed Smartsheet dashboards and Salesforce data to align operational metrics with stakeholder reporting needs.
- Collaborated with cross-functional teams to identify data discrepancies exceeding \$500K, implementing sustainable fixes and standard operating procedures.
- Developed data models and templates to improve accessibility and reduce communication gaps between business units.

The Home Depot, Incorporated

Digital Content Data Analyst

Nov 2024 – Apr 2025

- Managed enterprise product information workflows by onboarding 1,000+ new products into the corporate system and improving visibility across digital and retail teams.
- Coordinated with external vendors to secure required digital assets, ensuring compliance with content and licensing standards.
- Configured database records and generated Excel-based reports for executives to track project milestones and asset readiness.

Navistar International Corporation

Sales Data Analyst

Jun 2024 – Nov 2024

- Delivered daily and weekly reports tracking sales and return trends for 150+ dealer accounts across North America.
- Partnered with IT and business stakeholders to improve Salesforce field structures and streamline reporting for leadership visibility.
- Created advanced Excel dashboards using PivotTables, VLOOKUPS, and data validation to support data-driven decision-making.

Republic National Distributing Company – RNDC

Sales Data Analyst

Aug 2023 – May 2024

- Maintained master data for supplier and customer accounts in Salesforce, ensuring accuracy for order fulfillment and program management.
- Standardized information flow across departments by designing consistent Excel reporting templates.
- Ensured database consistency for 5,000+ products, minimizing data integrity issues and operational errors.

The Walt Disney Company

Product Information Specialist

Apr 2022 – Jan 2023

- Supported global data migration into SAP S/4HANA, maintaining metadata and digital assets for over 200 retail locations.
- Partnered with project managers to coordinate timelines, meeting notes, and Agile sprints in Monday.com.
- Consolidated complex product and asset data, ensuring seamless integration between legacy systems and the new master database.
