Summary

Full Stack Web Developer with hands-on experience in building fast, responsive, and scalable web applications. Skilled in modern JavaScript frameworks such as React.js and Next.js, with strong proficiency in RESTful API integration. Focused on writing clean, maintainable code and delivering seamless experiences across both frontend and backend systems.

Skills

Frontend: React.js, Next.js, TypeScript, Redux, TailwindCSS, Javascript, JQuery, HTML5, CSS3
Backend: Node.js, Express.js, RESTful API design
Database: MongoDB, SQL, Supabase
Framework and Tools: Git version control, VS Code, Agile (Scrum)

Experience

Software Engineer

May 2022 - Aug 2023

PROMOUNT Technologies LLP

Ahmedabad, Gujarat

- Developed and maintained modular React.js components for hospital management system, supporting both administrative and clinical workflow.
- Designed and implemented RESTful APIs using node.js and express.js enable efficient communication between frontend backend services
- Utilized redux for managing complex application state, ensuring consistent UI behaviour across multiple modules.
- Worked with cross-functional teams in Agile sprint to deliver reliable and maintainable features.

Software Engineer Intern

Jan 2022 - April 2022

PROMOUNT Technologies LLP

Ahmedabad, Gujarat

- Organized authentication flows using toast notifications and conditional routing for dashboard access.
- Implemented authentication workflows and protected routes to manage secure access to user dashboard
- Contributed to a reusable UI component library by adhering to design system standards and best practices.
- Collaborated with senior engineers to improve code quality, enhance performance, and complete feature development on schedule.

Projects

Innsync | Next.js, TailwindCSS, Shadcn/ui, Supabase, Prisma, Clerk, Zod, Vercel

Jan 2025 – Mar 2025

- A homestay booking platform offering customizable short and long-term stay options.
- Engineered scalable routes using Next.js App Router and server actions for improved performance.
- Integrated secure login/authentication with Clerk and ensured reliable validation using Zod.
- Stored images and user data via Supabase; designed seamless UI with Shadcn/ui components.

Cinechum | React.js, MongoDB, React Router, Context API, TailwindCSS

Jun 2024 – Aug 2024

- Built a movie discovery app with TMDb API integration to fetch categorized film data.
- Managed global state using Context API for theme toggle and search functionality.
- Used MongoDB to store user preferences and watchlists with seamless CRUD operations.

Github Finder | React.js, GitHub REST API, React Router, TailwindCSS

Feb 2024 – Apr 2024

- An open-source GitHub user explorer with elegant UI transitions and responsive layouts.
- Queried and displayed user profiles, repositories, followers, and key stats using GitHub's API.
- Focused on accessibility, consistent layout, and fast rendering of dynamic data.

Education

Post Graduation in Web Development

Sept 2022 – Dec 2023

Conestoga College, Kitchener, ON

GPA: 3.48/4

Bachelor of Technology in Computer Science

Aug. 2018 – June 2022

Silver Oak College of Engineering and Technology

CPI: 8.51/10
