SUMMARY

Passionate and high-performing Software Engineer skilled in full-stack development, microservices, and scalable systems. 1500+ Data Structures and Algorithms(DSA) problems solved, ICPC Regional Competitor, and experienced in delivering enterprise solutions, and a Professional chess player.

EDUCATION

University of Central Missouri, USA, MS in Computer Science January 2024 – December 2025
Cumulative GPA: 3.5 / 4.0

National Institute of Technology Calicut, India, Bachelor's degree in CS July 2018 – May 2022
Cumulative GPA: 9.24 / 10.0

SKILLS

Programming Languages	C, C++, Java, Python, C#, SQL, JavaScript/TypeScript, HTML/CSS, AWS.
Frameworks & specialization	Spring Boot, React.js, Node.js, Angular.js, .NET, Machine Learning, Database Systems.
Technical Skills	Software Design, Microservices, Distributed Systems, DevOps (CI/CD), Competitive Programmer, Data Structures & Algorithms, Git.
Soft Skills	Innovative, Communication, enthusiastic, Agile Methodologies, leadership, visionary

EXPERIENCE

Software Development Engineer Aug 2022 - Dec 2023
Infosys, Client: Intel Hyderabad, India

- Designed and maintained scalable web applications using **Spring Boot, Angular, and Java**, achieving **99.9% uptime** for high-traffic enterprise systems.
- Refactored legacy monolithic code to **microservices architecture**, improving software **performance by 30%** and reducing **server costs by 15%**.
- Automated CI/CD pipelines using **Jenkins and GitHub Actions**, reducing **deployment time by 40%** and enhancing team productivity.

Full Stack Developer Intern Mar 2022 - Apr 2022
TurboHire Hyderabad, India

- Designed a user-centric interface with React JS & Typescript, improving UX/UI and **reducing load times by 25%**.
- Implemented **OAuth-based** authentication, bolstering security and enhancing user experience.

PROJECTS

Banking Application — *Java, SpringBoot*

- Designed and developed** a console-based banking management system using Java, simulating real-world operations such as account creation, authentication, balance inquiry, deposits, and withdrawals.
- Applied object-oriented design (OOP) principles** such as **inheritance, encapsulation, and polymorphism** to ensure **modularity and scalability**.
- Built custom **exception handling** logic for robust **input validation** and error management, enhancing user experience and preventing runtime crashes.

Instagram Clone — *React JS, Firebase*

- Built a **full-stack social media application** replicating key Instagram features, including user authentication, posts, and comments.
- Implemented the **front end with React.js** and the **back end with Firebase** for real-time data synchronization and cloud storage.

ACHIEVEMENTS & CERTIFICATIONS

- LeetCode - Top 6% (Rating 1850)**, Ranked 336/25,000 in Weekly Contest 446
- HackerRank - 1450** (5 stars in Problem Solving, C++, Python)
- CodeChef - Rating 1807 (4 stars)**, Global Percentile: 99.15 %
- ICPC Regionalist 2020**: Regionals Rank 214/722 teams, Preliminaries Rank 101/3505 teams.
- Solved 1,500+ DSA Problems (600+ on LeetCode)**, showcasing advanced algorithmic and problem-solving skills.
- Google Hash Code 2021**: Rank 2,213 out of 9,000+ teams.
